ECZEMA ON EAR

I suffered from Eczema on the right ear. I could hardly keep my hands off it, the itching was so severe. Small bubbles would open, emitting a watery-like substance, apparently poisonous. One of the leading doctors here treated me, and applied the usual physician's remedies without benefit. My brother recommended that I try CUTICURA. The *first application was soothing*, and before the box was *half gone the disease had disappeared*.
H. C. BARNET, 614 Race St., Cinn., O.

SPEEDY CURE TREATMENT FOR EVERY KIND OF ECZEMA, WITH LOSS OF HAIR.—Warm baths with CUTICURA SOAP, gentle anointings with CUTICURA, purest of emollients, and mild doses of CUTICURA RESOLVENT.

Sold throughout the world. POTTER DRUG AND CHEM. CORP., Sole Props., Boston. "How to Cure Eczema," free.

SCHLEY AS A HUNTER

How the Commodore Found the Spanish Fleet.

It is Not Guess Work, But Deep Cunning.

Came Near Being Called Off From the Chase.

Boldly Coaled His Battleships at Sea and Then Flushed the Quarry in Santiago Bay.

(Copyrighted, 1898, by the Associated Press.)

WITH THE UNITED STATES FLEET, OFF SANTIAGO DE CUBA, May 29.—Via Port Antonio, Jamaica, June 2.—Four weeks after the victory of Rear Admiral Dewey at Manila Commodore Schley, in command of the flying squadron, had his shrewdness and pertinacity rewarded by finding the Spanish fleet in the harbor of Santiago de Cuba.

For ten days he had, in the face of conflicting rumors and some cases of alleged verifications, insisted that the ships of Spain were trying to make a landing on the southern coast of Cuba.

This was evidently not in consonance with newspaper and official information and his opinion was not given much public weight. In fact, it is believed that some days before he proved the correctness of his diagnosis of the situation he was ordered to return to Key West.

However, new facts gathered by him in the meantime gave him still more grounds for belief as to his proximity to the Spaniards.

The captain of the British steamer Adula, who was interviewed at Cienfuegos, told of seeing the Spanish fleet in the vicinity of Santiago de Cuba, evidently awaiting opportunity to get in.

Captain Sigsbee, of the St. Paul, related how he had captured a Spanish coal vessel going in the harbor at Santiago de Cuba, and Commodore Schley argued from these two incidents that the fleet of Spain was waiting in some haven near Santiago de Cuba until such time as a visit, fruitless in its results, should be made there by the Americans, when, upon their departure, the Spanish fleet would run into the harbor.

Commodore Schley determined to make that visit and, on Friday night, he ran within six miles of the harbor. The St. Paul was then detached and ordered to keep out of sight, with instructions to be ready at a twenty knot clip to bring news to the commodore at any moment.

From the American ships the Spanish batteries were in plain view, but no doubt under preconcerted arrangement, for they made no attempt to fire, and the flying squadron, after circling around, slowly steamed away in the direction of Key West, as its coal supply was becoming short.

There was a collier with the squadron, but there was no friendly harbor with smooth waters and there was serious danger of smashing the collier if an attempt was made to coal the heavy battleships at sea.

Resourceful and daring Commodore Schley showed forth, however, and at dark, with an original rigging to protect the ships, the Texas and the Marblehead began to coal. They worked all night and at daybreak had filled their bunkers.

By noon on Saturday the converted yatch Vixen had also coaled, and at 1 o'clock, not having heard from the St. Paul, the American warships moved again towards Santiago de Cuba.

First standing off the coast about fifteen miles, the squadron afterwards circled in front of Morro Castle, but not close enough in to get a view of the inside of the harbor, guarding carefully against the possibilities of a torpedo boat attack.

At night the squadron lay off a point of land, and in the morning (Sunday) the St. Paul came along, but did not report any knowledge of the Spanish fleet's whereabouts.

Consequently, Commodore Schley determined to find it.

With the flagship in the lead he started towards the harbor. The Spanish troops at the earth works and batteries could be seen, through glasses, preparing in haste to give the American ships as warm a reception as possible.

When about five miles from the batteries, the lookouts reported the masts of two ships, and Flag Lieutenant Sears and Ensign McCauly made out the first of them as the Cristobal Colon.

Two torpedo boats were also made out, and a second vessel of the Vizcaya class was seen. All this time Commodore Schley was upon the after bridge of the Brooklyn making good use of his binoculars.

Arrived at the harbor entrance, when the ships were sighted from the deck, he turned his eyes from the glasses long enough to wink and say:

"I told you I would find them. They will be a long time getting home."

The order to man the port batteries had been given and the men, stripped to the waist in a temperature considerably over one hundred degrees, awaited with impatience the word to fire.

But the commodore decided not to waste ammunition on the batteries and the men were disappointed.

For the time being, however, there was much quiet jubilation among the men over the prospect of a fight.

Commodore Schley showed his evenness of temperment by ordering the Massachusetts to take coal from the collier within view of the forts and warships of Spain.

On the Texas Capt. "Jack" Philip went through with the day's routine, including church services, at which the men, with a refreshing directness of suggestion, sang "Pull for the Shore."

As it was perfectly evident from the position of the Spanish warships on Sunday morning that they had either just entered the harbor, having learned of the supposed final departure of the American squadron, or had been in hiding in the bay, which is about nine miles long, and had run down to get out early Sunday morning.

In any case it was excellent proof of the perfection of Commodore Schley's tactics, and showed that, after weeks of weary following of clues furnished by strategy boards, in seven days he had succeeded in bottling up the Spanish fleet in one of its own harbors.

Less than two days before, two supposedly Cuban pilots sent from Jamaica by the government, had informed the commodore on the deck of the Brooklyn that no vessels of the size of the Spanish warships could go up the harbor, and, after this information had been politely received, the pilots were sent back to Kingston, although they desired to be landed in Cuba.

The latest maps of the harbor show a narrow but deep channel, fairly well protected, and supposed to be mined. The narrow neck is not wide enough to allow more than one ship at a time to pass up, and the batteries, unless reduced, would be very destructive.

There are three batteries outside and three small ones inside and between the entrance place and the city proper the distance is very nearly three miles up the bay, measuring from Morro castle.

The latest information in the possession of the government showed that at the narrowest point of the entrace near Morro castle there are three lines of electrically-worked mines, thirty in all. Besides this there are two sets of new batteries just opposite the Morro, forming with the latter a dangerous cross fire.

Just inside this are two batteries on the east shore, Estrella and Catalini. Cayo Smith, about half a mile up the bay and about in the center, where the narrow entrance widens out, has batteries of modern guns, as has also a Blanco battery, just near the city of Santiago itself. About two miles west of Morro, inshore, is the Case battery and there are also supposed to be some mines near Cayo Smith.

The armament of the various batteries is supposed to be as follows, not including the new earthworks behind which there are modern guns:

Morro—Four modern guns and ten eighteen and twenty four-pounders.

Blanco Battery—Nine smooth bore, eighteen and twenty-four-pounders of little account and two small mortars.

The Estrella Battery — Ten smooth-bore guns.

Cayo Smith—Several modern guns.

The forts are mainly of brick and stone, constructed a century ago, although there are evidences of new earthworks being thrown up.

The only view into the harbor for any distance is from the southwest, and, as the flagship passed along, Lieutenant Sears noted that the Spanish cruiser Reina Mercedes, which has been partly dismantled, lay in the harbor perhaps 1,500 yards inside of Morro Castle.

To the westward and further in side was the Spanish first-class armored cruiser Almirante Oquendo lying under the guns of Cayo Smith and to the east of it, her starboard battery looking down upon the narrow channel, was the Cristobal Colon with room only for one ship at a time to pass.

It will thus be seen that it would be suicidal to attempt to force an entrance into the place at least, until the batteries are reduced and that will consume a lot of ammunition.

At the same time taking it for granted that the remainder of the Spanish fleet, with four cruisers and two torpedo boats, is still further up the harbor, it means that the warships of Spain are effectually bottled up so that they can do no harm.

Sunday at sunset found the squadron in battle line outside Santiago, the Brooklyn on the east of the line, the Massachusetts next to her, the Iowa west of the Massachusetts and next the Texas which was on the extreme left while the Marblehead and the Vixen scouted in shore.

To leave Santiago the Spanish ships would have to pass this seemingly impregnable barrier.

Monday May 30—The American fleet this morning retained its position off Santiago and no attempt was made during the night or morning, on the part of the Spanish fleet, to get out of the harbor.

The United States cruiser New Orleans arrived during the afternoon and joined the squadron, and the collier Stelring also came along.

Born, to Mr. and Mrs. William C. Scheele, of 29 Miner street—a son.

DEBATE WAS WARM.

Senator Butler Discusses War Revenue Bill.

Republican Party Blamed for the Delay.

Bill Calculated to Arouse Antagonisms.

Charges That the Republican Party is Under Obligations to Fulfill Promises to the Trusts.

WASHINGTON, June 2.—At the opening of today's session the senate passed a bill conferring American register upon the steamship China, one of the fleet of the Pacific Mail steamship company. The China has been chartered by the war department to transport troops to the Philippines. The China is now under the Hawaiian flag. Consideration of the revenue bill was resumed and Mr. Butler, populist, of North Carolina, addressed the senate. He regretted that the finance committee had not seen fit to present to the senate a genuine revenue bill. In the circumstances the responsibility for delay in the passage of the pending measure rests, said he, upon those who have placed in the bill provisions that have no place in a revenue measure. He expressed his regrets that those holding peculiar views on the money question had seen fit to have the controverted bond finances incorporated in the measure, as it forced those who differed from the committee on those questions to discuss them. Senator Butler then made a characteristic attack upon the republican party, in the course of which he arraigned what he said was the determination of the majority of the senate to incorporate in the bill a provision for the issue of bonds. He made serious reflections upon the senate itself, charging that its majority had been "unduly influenced" upon the question of bonds,

The statement brought to his feet Mr. Gallinger, republican, of New Hampshire, who demanded that Mr. Butler make his charges more specific.

In the course of a colloquy between the two senators, Mr. Butler declared that immense sums had been contributed to the republican presidential campaign fund by the "trusts and monopolists and bond holders and money changers," and that 99 per cent of the money had been raised and paid over to the republican party under a contract that certain legislation promoting the interests of the trusts and monopolies should be enacted.

URGENT DEFICIENCY BILL WAS PASSED.

WASHINGTON, June 2.—The house today passed a bill providing for the establishment of postoffices at military posts and camps.

Also a resolution directing a survey to be made of a channel from Ship Island harbor to Biloxi and Gulf Port, Miss., and a bill to return to the state of New York the flag carried in the civil war by the One Hundred and Fourth New York volunteer infantry.

Mr. Cannon, from the committee on appropriations, presented an urgent deficiency bill to supply deficiencies in the appropriations for the army and navy establishment for the present fiscal year, the appropriations to be available until December 31, 1898.

In committee of the whole Mr. Cannon explained the presentation of the measure. He said it was the policy of the committee on appropriations to hold back the general deficiency bill until practically the close of the session in order to catch up all the items that may develop as necessary up to the latest moment of the session. Meantime the present bill was urgent and had been reported for present consideration because its items could not wait upon the general deficiency bill.

Incidentally he estimated the appropriations already made on account of the war and likely to develope as essential including the first six months of the coming fiscal year, at $350,000,000. In response to a question from Mr. Dingley, Mr. Cannon said the war would cost approximately $600,000,000 provided it should continue one year. The urgent deficiency bill was passed.

FIFTY MILLIONS ASKED FOR WAR.

WASHINGTON, June 2.—The secretary of war today sent to congress a request for appropriations amounting to $53,897,358. These appropriations will be used for the equipment and maintenance, until January 1, 1899, of the 75,000 volunteers recently called for by the president. The several items are given as follows:

Pay of volunteers, $14,099,881.

Subsistence of the army, $5, 147,477.

Regular supplies of the quartermaster's department, $2,500,000.

Horses for calvary and artillery, $1,000,000.

Barracks and quarters, $1,500,000.

Army transportation, $14,000,000.

Clothing for the army, $1,000,000.

Contingencies of the army, $50,000.

Equipment of engineer, troops, $25,000.

Signal service of the army, $37,000.

Civilian assistants to engineer officers, $20,000.

CARNIVAL AND FAIR.

Citizens Must Hustle or it Will be a Failure.

Committee Will Meet This Evening in the Parlors of the Randall Hotel--Members Should Attend.

The committee having in charge the arrangements for the proposed carnival and fair will meet tonight in the parlors of the Randall hotel and every member should attend. Each committee will be expected to make a report. The report of the finance committee will be heard with the most interest. There is general disappointment at the result of the canvass made by this committee. The members thereof are discouraged and while there has been a generous response from many citizens those from whom the biggest subscriptions were expected did not respond with their usual liberality. The meeting tonight may determine definitely whether or not there will be a carnival. If the committees are not satisfied at the prospects and they do not look brighter than they do today the project will be abandoned.

There is no event which would boom Fort Wayne more than the street fair and carnival, but it takes money to make it a success, and if the lucre is not forthcoming the committee feels that it can do nothing but cry quits.

Drs. McOscar and Porter will leave on Saturday for Denver to attend the convention of the Medical Association of the United States. They go as representatives of the State Association of Indiana. Mrs. Mary McOscar will also be one of the party. The convention meets June 7 to 10, inclusive.

You can get WAYNE GRAHAM CRACKERS fresh through your grocer. No reason for taking a substitute. Insist on getting the "WAYNE."

CIRCUS TICKETS.

Plenty of circus tickets for all. Don't forget the circus is on Saturday, June 4th. Tickets given with every fifty-cent purchase or over at THE NEW KEYSTONE, 238 and 240 Calhoun St.

Mrs. Robert Dreibelbiss, of No. 79 West Jefferson street, is entertaining the Amicus club this afternoon.

Important to Know.

When buying Graham Crackers you should get the WAYNE. No other make will compare with the sample left at your home.

FLEETS MEET TODAY

Decisive Battle in Progress Between Schley and Cervera.

SCHLEY RENEWS THE ATTACK ON SANTIAGO

CAPE HAYTIEN, Hayti, June 2.—According to information received here from hitherto accurate sources, a decisive engagement between the United States and Spanish forces is expected to take place today at Santiago de Cuba.

ANOTHER ATTACK ON SANTIAGO.

NEW YORK, June 2.—The world's Port Au Prince special says that Commodore Schley renewed the attack on Santiago today and that 3,000 insurgents are making an assault on the land side.

A later dispatch says:

"It is reported from Santiago that the rebels have attacked the city in three columns and that a bloody fight is going on."

SAYS CERVERA'S FLEET IS DIVIDED.

LONDON, June 2.—The Spanish ambassador in London, Count Rascon, in an interview today, is quoted as supporting the assertion made in Madrid that the Cristobal Colon was the only important Spanish vessel in the harbor of Santiago de Cuba during the recent engagement there. One paper predicts that Admiral Cervera's movements are likely to furnish startling news in the near future.

SCHLEY'S FLEET REINFORCED.

[Copyrighted by Associated Press.]

KINGSTON, Jamacia, June 2.—9:40 A. M.—Advices received here from Port Antonio today say that Commodore Schley has been notified by the navy department that the battleship Oregon, the first-class armored cruiser New York, another cruiser and two colliers have been sent to Santiago de Cuba.

RULES FOR RIDERS.

Bicyclists and Teams Must Travel in the Same Direction.

Board of Works Will Make Rules for the Swinney Park Track--May Speed on Saturday Afternoons.

The board of works finds it necessary to make rules governing the riding of wheels and driving of horses on the Swinney park track. All the riders and most of the drivers turn to the right onto the track and then drive to the left, but some stubborn drivers go in the opposite direction and insist that they are living up to the law in driving to the right. Last night a young man and his sweetheart were driving on the track and they traveled in a direction opposite to every bicyclist who was out for a few hours' pleasure. The board of works will tonight adopt a rule that everybody must travel in the same direction while on the track and the park officer will be instructed to enforce the rule.

WANT TO SPEED SOME.

This morning Harry Templar handed to the mayor a petition signed by himself and seventy-seven others requesting on behalf of Fort Wayne bicyclists that they be permitted to use the Swinney park track for speeding purposes between the hours of 2:30 and 7 o'clock p. m. every Saturday. In the petition the bicyclists agree to offer entertainment to those persons who do not ride. The petition will probably be granted by the board of works at tonight's meeting.

WILL LICENSE PLUMBERS.

The board of works has prepared an ordinance licensing all plumbers. It requires that each plumber desiring to do business in Fort Wayne must pay $2 yearly for a license, and give a bond of $5,000 that they will properly repair all streets where excavations are made. It also requires the plumber to take out a permit for each separate excavation in a street and compells him to notify the board of the time at which he intends to do such work. The ordinance will be introduced at the next meeting of the council.

KICKERS NIGHT.

The board of works will tonight hear objections to proposed alley and sidewalk improvements. They will also consider the assessment roll for the straightening of Creighton avenue and Hoagland avenue.

NEW SANITARY OFFICERS.

The board of health at a meeting held yesterday afternoon removed Sanitary Officers Louis Heck and Stephen Drew and appointed to the vacancies F. W. Miller and A. J. Aubrey. The new officers qualified this morning.

THE FIRST DESERTER

A Cuban Volunteer Returns a Prisoner.

Accompanied the Florida's Cuban Expedition.

Showed the White Feather and Hid Himself.

Further News of the Attack on Santiago de Cuba--Gunboat Leyden Challenges Two Spanish Gunboats.

TAMPA, Fla., June 2.—The transport Florida, which left here over two weeks ago with one of the largest expeditions for the arming and reinforcement of the Cuban army ever sent out from Tampa, returned here today.

Confined on board with the grave charge of desertion against him is an American, who enlisted in the Cuban volunteers, who were sent in the Florida, but who, according to Captain Silver, who was in command of the expedition, at the last moment, when all the supplies had been landed and the volunteers were ready for their march into the interior, showed the white feather and ignominiously hid himself on board the transport.

The man's name is said to be Tate. He lives in Tampa and joined the volunteers some time before their departure. Tate was not discovered until some time after the Florida had left Point Banes, where the landing was made, and though at first there was strong inclination to turn back and put Tate on shore, it was finally decided to bring him to Tampa as a prisoner.

THE ENGAGEMENT AT SANTIAGO DE CUBA.

ON BOARD THE ASSOCIATED PRESS DISPATCH BOAT DANDY, OFF PORT ANTONIO, June 1—(Delayed in transmission)—The squadron commanded by Commodore Schley attacked the batteries at Santiago de Cuba yesterday afternoon and also engaged the ships of Admiral Cervera, which were lying in the harbor.

The Spanish flagship Cristobal Colon was struck twice by shells fired from the Massachusetts, and the Spanish batteries were badly damaged by the fire of the United States cruiser New Orleans.

The Spaniards fired about three hundred shots and the Americans fired about one-fourth that number.

No American vessel was hit and no one on board the American ships was injured.

The Spanish loss was not heavy.

CLYDE STEAMER FANITA LEAVES CAPE HAYTIEN.

(Copyrighted, 1898, by the Associated Press.)

CAPE HAYTIEN, Hayti, June 2.—8:15 A. M.—The Clyde line steamer Fanita, Captain Waters, which arrived here yesterday half empty, bringing from New York provisions for the navy, which she landed at Matthewtown, Great Inagua, in the Bahamas, slipped away at about 10 o'clock last night, with between seven and fifteen Dominicans added to her crew. She was to touch at Monti Cristi, Dominican republic, or at the Keys, just outside, to fill up the empty portion of her hold. She had on board Chris. Roberts, of Great Inagua, the most famous pilot of the West Indies.

The captain of the Fanita, when the vessel was here, said the portion of her cargo which was not landed consisted of coal, but there is good reason to suppose that it is something very different from coal.

Proof that the Fanita is under serious suspicion was afforded this morning by the excited conduct of the Spanish consul here. He denounces the taking on board the steamer of Spanish-speaking roustabouts and the sudden sailing of the vessel without notice and without the permission of the Dominican consul. The Spanish consul classes this as a great outrage and an act of piracy, and a formal protest has been entered with the Haytien authorities.

The Spanish consul telegraphed to his diplomatic chief at Santo Domingo this morning about the Fanita. There are large numbers of Cubans in Dominica who eagerly desire to return to Cuba and take part in the war, and the correspondent here of the Associated Press is informed that the Spaniards of this place believe that it may be part of the mission of the Fanita to afford these Cubans transportation, at the same time furnishing them with arms and ammunition.

LEYDEN CHALLENGES SPANISH GUNBOATS.

(Copyrighted, 1898 by the Associated Press.)

KEY WEST, Fla., June 2.—7:50 A. M.—The tug Leyden, which has been scouting along the northern coast of Cuba, had an adventure with three small Spanish gunboats at Cardenas yesterday.

The Leyden has been playing hide and seek with the enemy's gunboats for some time, without an encounter. Yesterday morning before daybreak she ran into Cardenas harbor to a point within five miles of the city. There are two parallel lines of keys and the Leyden had just skirted the outside line when she sighted three Spanish gunboats beyond the inner line, slowly moving towards the sea. The tug sent in a couple of shots from her six-pounder; but, the Spaniards evidently thought she was backed up by big warships, for they promptly withdrew without replying to the challenge of the bold little craft, which scudded out to sea again.

The Leyden also confirms the story of the attack on and destruction of two blockhouses between Matanzas and Cadenas, an account of which was given in yesterday by the auxilliary gunboat Uncas, formerly the Walter A. Luckenback, which had participated in the miniature bombardment. The Leyden lost a gaff during the fight, but was otherwise uninjured.

The Spaniards, it is recounted, are filling Cardenas harbor with old hulks, boilers and other obstructions in order to prevent any effective entrance of the American ships.

SAN FRANCISCO'S CREW SUFFER FROM WEATHER.

BOSTON, Mass., June 2.—The United States cruiser San Francisco arrived today with ten of her seamen ill. The men were transferred to the Naval hospital at Chelsea. This is the second time during the week that the coast patrol cruiser has landed sick men here.

The sailors on the San Francisco have been accustomed to warm climates and the rough weather which has swept over the coast during the last ten days has laid twenty-three of them up in the hospital at Chelsea with penumonia, measles or serious colds.

ANOTHER BRITISH STEAMER CAPTURED.

KEY WEST, Fla., June 2.—10:30 A. M.—The British tramp steamer Bengal, of Glasgow, was sighted off Florida Keys yesterday. As she did not hoist her colors when signalled she was hove to by a shot. Admiral Cervera's coal is being unloaded from the Restormel at the station dock. It will be bid in by the United States, and will be used for our ships.

MRS. A. J. READ DEAD.

Passed Away at the Home of Her Son This Morning.

Suffered a Stroke of Apoplexy Yesterday, Which Resulted Fatally--Other Deaths.

Mrs. Maria Read died this morning at 9:10 at the home of her son, Chas. E. Read, No. 137 Edgewater avenue. Mrs. Read had been in apparently good health until yesterday afternoon, when she suffered a stroke of apoplexy. Her condition was serious from the beginning and she grew rapidly worse until this morning when she passed peacefully away.

Mrs. Read was born Maria Patterson and was wedded to Asahel J. Read in April, 1849. To them were born two children, Charles E., one of the proprietors of the Pixley clothing house, and Esther, now the wife of George Brown, of Lafayette. On May 13, of this year, the aged husband died at his home on West Main street and now the wife goes so soon to join him in the world beyond.

SACK.

Miss Rosa Sack died at the home of her parents, at Hasse Castle, on Wednesday evening. She was the daughter of Mr. and Mrs. Henry Sack, and was twenty-one years of age. The cause of death was dropsy. She had been ill seven years, and had lived in Marion township all of her life.

WAGNER.

Rudolph Wagner died at his home, at 441 Hanna street, yesterday afternoon. Deceased was seventy-three years of ago, and had long been a resident of Fort Wayne. He leaves a wife and family of grown children. The cause of death was old age. The funeral will occur from the residence Friday afternoon. Rev. H. Juengel will officiate.

QUAY'S VICTORY.

Col. William A. Stone Nominated for Governor of Pennsylvania.

HARRISBURG, Pa., June 2.—Colonel William A. Stone, member of congress from Allegheny, was today nominated for the governorship of Pennsylvania by the republican state convention. His nomination is a victory for Senator Quay, against whom the Wanamaker faction has been fighting.

In a letter to the convention Mr. Wanamaker withdrew from the gubernatorial race and asked his supporters to vote for Charles W. Stone. The first ballot resulted: W. A. Stone (Quay candidate), 198; C. W. Stone (Wanamaker candidate), 162. The fight practically closed yesterday when Senator Quay, who came here for a few hours and returned to Washington last night, advised his friends that Col. W. A. Stone was his choice.

The platform endorses the administration of President McKinley, favors vigorous prosecution of the war and re-affirms the national republican platform of 1896.

FREE TICKETS.

Thing & Co. will give their customers free tickets for the Norton & Jones' circus. Come in and get them. They cost you nothing.
S. B. THING & Co.
32 Calhoun Street.

Large Red Boot.

Born, to Mr. and Mrs. William Scantling, of East Jefferson street—a girl.

NOTHING IS HEARD.

Schley Has Not Yet Sent Official Advices.

Navy Department Waiting for His Dispatch.

The Santiago Job is Not Yet Completed.

Schley Has Uncovered the Spanish Admiral's Resources and the Rest Will be Easy.

WASHINGTON, June 2.—It was stated autoritatively at the navy department at noon today that not a word had been received from Commodore Schley as to the engagement at Santiago. The officials express no surprise at this delay and account for it on several grounds. In the first place it is said that a fleet commander must await until an engagement is completed before he makes his report, that the press reports may give only the initial features of an action without waiting for its completion. There are intimations that the press reports cover only the first features of Commodore Schley's movements, and that until these movements were developed to the point where the results in view were actually achieved, reports would not be made on incidental phases of the general movement.

Moreover, it is pointed out that the fleet commander must communicate with all the commanders of the ships making up his fleet, in order to learn as to casualties, damage and all the circumstances of the engagement.

When thus informed his report is made deliberately, and this in turn must be translated to the naval cipher code. When received here there is another delay in deciphering the code dispatch.

Altogether, it is said that the care in preparing official dispatches makes them about twenty-four hours behind the press advices. It was thought that the absence of exact official information might embarrass the work of the war board, but officials say this has not occurred.

The official intimation that the action of Tuesday is only the initial phase of a more general movement is strengthen by the view that Commodore Schley would hardly attempt an attack unless he had some definite object in view. This object, it is believed, is to learn exactly as to the number of Spanish ships now within Santiago harbor, and also to develop the effectiveness of the fire and of the ships forcing the entrance of the harbor. With these two points established beyond the slightest doubt, the campaign, military and naval, could be executed against Santiago with much greater certainty as to results.

While the navy department has been satisfied for the last two days that Admiral Cervera's entire fleet is in Santiago harbor, Commodore Schley has not yet been able to make an official report establishing this fact beyond the shadow of a doubt. Of course, the locating of this entire Spanish fleet, not excepting a single vessel, large or small, is of essential importance to the complete and intelligent determination of a strategic campaign.

It would remove the last element of hazard in sending troops from Tampa or Jacksonville and the danger of their being harrassed in the rear by some of the Spanish ships. It is of equal importance that the present strength of the shore batteries, their location, number of guns and general effectiveness should be established. These points can be learned only by a feint which feels the outward appearance of an assault upon the Spanish defenses.

When completed it is felt that it will serve as a basis for more complete advices as to the actual situation of affairs at Santiago harbor than have been available at the navy department up to this time.

It is in this light that Commodore Schley's movement is regarded as important, not so much from the destructive results achieved as from the opportunities it affords for developing all the resources at the command of the Spanish admiral.

FRIDAY AND SATURDAY.

At Lehman's Clothing House--Points of Interest.

300 dozen Peyser linen collars, guaranteed 2,100 linen and four-ply, all styles, all sizes, at 10 cents.

CERVERA will take care that the next bottle he crawls into is open at both ends.

TO SAVE time Spain can check off in advance several "sad but glorious day" for the month of June. Her troubles are going to multiply.

THE bombardment of the Santiago batteries by Commodore Schley's ships is claimed by Spain as a victory, probably because Cervera's fleet was not sent to find sea bottom.

TEN or a dozen years ago the Canadian government enfranchised the Indians who were living on reservations. A clause in the new franchise bill now before parliament revokes their franchise and puts them on a level with savages again. The main argument in favor of the clause is the Indians' susceptibility to bribery, which appears weak reasoning in this age of political knavery. Some very white men are political Indians.

PEACE may come before Spain is thoroughly whipped by the forces of the United States. Spain's exhausted credit is the most powerful ally Uncle Sam can have, for nations without credit cannot wage war.

BRIGHAM YOUNG'S son, now a resident of London, has just been declared bankrupt. This is a case where the son shows a marked contrast to the father. The latter, notwithstanding enormous expenses resulting from frequent purchases of many bonnets, gowns, etc., not only kept out of bankruptcy, but managed to lay aside a tidy fortune. There would have been some excuse for Brigham had he "gone broke," but apparently there is none for his descendant.

WHEN the first call for volunteers was issued Alaska felt slighted because she had not been asked to furnish her quota of men. Now that more volunteers are called for it is said to be the intention of the war department to permit as many Alaskans as desire to volunteer. This will be good news for the men who have been enjoying the winter season at Dyea, Skagway and other northern resorts. Most of them are pining for something hot and are ready to take it in any form. Even a hot fight or Cuban climate will do.

WHILE Americans have for the time being lost practically all interest in the Klondike, our Canadian friends are more active than ever in setting afoot plans for the development of that region. The dominion parliament will be asked to sanction a new enterprise of building a railroad to Hudson bay and thence to Dawson. It is an old plan enlarged to fit present needs, but it does not necessarily follow that the road will be built immediately. The Canadian system of granting heavy subsidies to new railroads invites schemes of this character, many of which are hardly bona fide.

WAR plans which have just been made public by Secretary Alger disclose the intention of the government to place Porto Rico under control of the United States. While it has been accepted as settled that Porto Rio is to be occupied, this is the first official intimation of the plan. The campaign of invasion contemplates the sending at once of 20,000 men to Cuba, to be followed by 50,000 more as soon as that additional number can be made ready. Doubtless it is the intention to return to the complete reduction of San Juan as soon as the American fleets have disposed of Cervera's squadron and forced the capitulation of Santiago. Sampson has already started the destruction of the San Juan defenses, and the location and strength of the batteries are known to him.

COMPLAINT has been made that "rear admiral" is an inapt title for a man so eminently equalified for keeping in front as is the conqueror of Manila. The point is not illtaken, but designations of rank are queer, anyhow, and few of them will stand much examination by philologists. And "admiral" itself is about the queerest of the lot. The word is the remnant of an Arabic phrase, of which the beginning was "ameer," or "emir," and it came to us—alas, that the truth must be told—straight from Spain. "Amir-al-bahr" meant "ruler of the sea." When the "bahr" was dropped, of course, the article should have gone, too, but it didn't, and when some overwise person put in a "d" because he thought he knew that the word was Latin, it became as absured a muddle as the dictionary contains—which is saying a good deal.

IN spite of the fact that England and the United States are drawing closer together, the English people and press have still a great deal to learn about Americans. The misinformation extant in London is certainly remarkable. For example, one London journal has just informed its readers that in this country the professional bridesmaid is by no means a rarity. The paper proceeds to go into details and says that "at a recent fashionable marriage in New York there were fifteen bridesmaids, all paid ones. Beside their dresses, given by the bride's father, they received $25 each." According to the veracious English journalist who wrote this article, a great number of young ladies have adopted this new way of earning money. The prices charged depend upon the attractive appearance and social standing of the young women, but sometimes as much as $100 is paid, and, it is declared, one young woman has been in such great demand that she has officiated at more than 200 ceremonies and has made in a very short time more than $20,000, without counting presents. These London writers are certainly gifted in imagination.

COMPLAINTS MADE.

Key West Officials Charged With Harsh Treatment of Prisoners.

WASHINGTON, D. C., June 2.—The complaints made against the United States officers at Key West of improper treatment of the captives on prizes brought by American vessels are being daily reinforced and are creating so much dissatisfaction here that it would not be surprising if the prizes hereafter taken by naval vessels were ordered further north to Charleston for instance, thus depriving the Key West officials of the fat fees which they have been making from this source. First came the report through Admiral Sampson of cadet Jones' charges against the officials, which are now to be formally investigated by a naval court martial. The latest case is in connection with the British ship Restormel, which was captured off Santiago with a load of coal apparently destined for the Spanish fleet inside. This vessel was brought into Key West with a prize crew, and, although her British nationality was perfectly evident, the officials at that port for some explained reason, positively refused to permit the captain to communicate with the British vice consul. The British embassy here, being advised of the fact, made prompt representations to the state department, with the result that orders were forwarded without delay to the district attorney's office at Key West to at once put the captain of the Restormel in communication with the vice consul.

ROBISON PARK NOTES.

The depot loop at Robison park is being inclosed with wire netting and shoots are being built in the depot for loading the passengers on the cars. The shoots are arranged to hold just enough people to fill a car and will prevent the rush and confusion of the crowds on busy days.

Through the kindness of Manager Scott the children of the Allen County Orphans' home will picnic at the park Friday.

Pete Baker the favorite german comedian will appear at the Park theatre next week.

Friday night a grand musical concert and dance will be given at the park pavilion. The music will be furnished by the new Park orchestra.

The Lake Erie and Western railroad and Findlay, Fort Wayne and Western railroad will run special trains to the city Sunday.

The new theatre at the park will be completed in about three weeks.

RELIGIOUS CEREMONY.

Completion of the Marriage of George Vanderbilt and Miss Dresser.

PARIS, June 2.—The religious ceremony of the wedding of Miss Edith Stuvesant Dresser to George W. Vanderbilt, took place at the American church here at noon today.

The civil ceremony was performed yesterday. There were 150 persons present today, including General Horace Porter, the United States ambassador to France, and Mrs. Porter; Chauncey M. Depew, Count and Countess Castelane, and the duchess of Marlborough, niece of the bridegroom.

Rev. L. L. Henson leaves today for Logansport, where he will deliver an address this evening at the Baptist church.

WE'LL DO A TRICK WITH TEN DOLLARS

That will astonish you--With the ten in your pocket you step into our store where are clustered all styles of our "Honest-value-in-every thread" kind of Men's Ready-to-wear apparel--look over our perfect $8 and $10 Spring and Summer Suits--rich, elegant, dressy garments, and be perfectly suited so to speak--Then give up the ten and walk forth a handsomely, stylishly, seasonably dressed man.--

GOT ANOTHER TRICK.

This time it's Trousers--About 500 pairs of $5 and $6 Trousers--Worsted, Cheviots, Cassimeres--perfect wearable garments in fabric, cut and fit--You can let your choice run loose in the lot at

$4.00.

The test of a bargain is not what you are told through the papers--but what you see and know. COME IN!

NEARING DAWSON.

Clarence Cook Writes a Letter From Alaska.

He Has Passed the Hardest Part of the Long Trip and is Beginning to Enjoy the Arctic Summer.

Clarence F. Cook, city editor of THE SENTINEL, writes the following interesting letter to his wife, dated Lake Bennett, May 13:

"Here, twelve miles from the head of Lake Bennett, our party is camped to remain until boats are built, the rest of the journey, nearly 800 miles, to be made on water. From this time until Dawson is reached will be more like a summer outing than anything else. These grand mountain and the beautiful stretch of lakes at this time is something extraordinary to look upon, but in the mild days of spring which are fast coming, nature is in her most pleasant mood, and the picture will then be one that could inspire an artist to attain the greatest heighth of his glory.

"Lake Bennett is twenty-six miles long and has an average width of one mile. It lies next body of water northwest of Lake Lindemann, which is the first of navigable waters running into the Yukon. When we left Lake Lindemann three weeks ago the mercury was down to twenty below zero, but the cold was not so severe as zero in our own country. During our stay there several of us were caught in a blizzard, lost the trail and had considerable difficulty in getting within sight of tents, but we finally got out all right. The weather here is warm, snow and ice are leaving fast. Those who have come in so far have had the advantage of bringing their freight down on the ice, using sails on the sleds and thus getting the benefit of the favorable south winds which prevail at this particular time of the year. Lakes Lindemann and Bennett occupy the same valley and the almost uninterrupted line of mountains along the shores make a good funnel for the winds which come from the ocean, and through the White and Chilcoot passes.

"When our boats are built we will launch and set sail for the land of gold with good prospects to encourage us onward. Our boat is to be twenty-four feet long and six feet wide. It will be christened the Edward, after our dear little son. We expect to reach Dawson in five weeks after starting from here. Shortly after arriving there I can write definitely about my home coming. The sacrifice of family separation, the many trials and hardships getting here are too many to leave hurriedly without clinching something substantial before departure. In a few weeks we will be sailing past rivers whose bars yield gold. All the rivers for many miles below us furnish flour gold, which increases in coarseness as the rivers are ascended. On any of these rivers a man can make good wages, but none are looked to now with much interest.

Dawson City seems to be the destination of nearly everybody, the impression being that upon reaching there information of rich strikes can be obtained. This is no doubt true, and early comers will get good claims with little trouble. The territory cut by gold-bearing streams is almost unlimited, so that there is little doubt of the truthfulness of the statement that 200,000 men could prospect the Yukon basin and be lost to one another. I can see only a bright future for the entire Yukon basin as a mining country, not only in auriferous deposits, but in vast leads of quartz and the other resources. The mountains on either side of us here at Lake Bennett are almost solid limestone. At Lake Lindemann the mountains are of granite—granite which has been polished by the weather in places until it is as beautiful as though done by hand.

"The rush this spring is hardly up to expectation, although it will be great. Many have turned back before crossing the divide unable to cope with the difficulties which are such as to test the endurance of strong, healthy and hardy men. It has been told by some writer that a trip to Alaska means most incessant toil, such as packing provisions over pathless mountains, digging in bottomless frosts, sleeping where night overtakes, enduring for seven long months a relentless cold which never rises above zero and frequently falls to 60 below. It is no doubt the truth but it is admitted by old miners that any man physically endowed to overcome these obstacles can by strict attention to business make a good stake with possibilities of a fortune.

"The summer months are delightful. Game is plentiful a few miles back from the now much traveled routes. They say that all along the line of travel from the coast range to old Fort Yukon the observer can see vast treasures of gold, marble and copper in the mountains. The day is coming when transportation facilities will make this chain of lakes and rivers one of the greatest tourist countries of the world. There is no grander scenery nor finer climate than this lake and mountain country during the three months of summer.

"We have as our guest this evening John Carroll, who has the subcontract to carry mail. He was on his way out from Dawson, having left there April 23, walking all the way. He said that very little prospecting has been done in the Klondike the past winter, but that many claims were staked on chance. Supplies at Dawson are plentiful. Many of these claims will no doubt prove rich, while others are worthless, but will serve the purpose of speculators who are preparing to do up the tenderfoot to the queen's taste when the spring rush is fully on.

"A reported rich strike on the Big Salmon river proves to be a fake gotten up for the sole purpose of lining the pockets of surveyors who charge big fees for their work. Mr. Carroll informed us that the Americans side offered the best inducements to the poor man. Forty Mile creek diggings, he said, at its poorest clean-up would produce $8 per day. When we get to Dawson I will most likely again join Mr. Ivey, Mr. Green and Dr. Gove and son, all of us to form a party for prospecting on equal shares. At least that is the most brilliant plan now in view. It offers an opportunity to make a few thousand dollars—possibly many.

"If in June we can get down to business I am to get on a boat as quickly as possible and return to the states, there to procure provisions and necessaries for the next winter.

"You can see women on all sides going into the gold fields, many of them being to all appearances refined and of good station in life. It is no longer a marvel that the fair sex should go to Alaska, for there is need of them there and all will do well.

"News of Dewey's victory at Manila harbor has just reached here, setting almost the entire camp in a glow of patriotic enthusiasm, showing how largely American the people here are."

NORTON & JONES' SHOW.

Season to Open Saturday--New Illuminant for Canvas.

The Norton & Jones' show will open the season Saturday evening with an exhibition on the jail flats. This show is one of the most popular and successful on the road, and starts out this season with better prospects than ever. The show has new attractions, new people, and the bill prepared for presentation to patrons is one of the best. The proprietors have introduced a decided innovation in the way of lighting tents with acetyline gas, the new illuminant. Even the best and biggest shows are clinging to the old fashioned gasoline lamp pendant from the center pole, and all the attempts made to get away from the dangers and disagreeable features of the unsteady light have been futile. Electric lights were tried, but the wires proved dangerous in case of windstorms. The proprietors of the Norton & Jones' shows have been first in the field to try acetyline gas, and believe they have solved a difficult problem. They have purchased three generators from C. R. Jeane, of this city, and the first test of the light will be made Thursday evening.

PATRIOTIC ENTERTAINMENT

At Westminster Church for the Benefit of the W. C. T. U.

A patriotic entertainment will be given in Westminster church tomorrow evening for the benefit of the W. C. T. U. The following program will be rendered:

Piano solo.....
Miss Jessie Scott, of Westminster Seminary
Recitation—"Dewey's Advance".....
Mrs. A. J. Boswell
Vocal duet—"Stars and Stripes Forever".....
Misses Carrie and Lillian Schrader
Patriotic address.....Prof. W. E. Adams
Recitation—"The Whistling Regiment".....
Miss Philley
Solo—"The Volunteer's Farewell".....
Dr. Wallheman
Recitation—"My Sister".....George Thorward
"Red, White and Blue".....Audience

JOKE OR FRAUD.

An Alleged Appeal to German Citizens Excites Berlin Newspapers.

BERLIN, June 2.—The German press strongly criticizes an alleged appeal published in the newspapers generally and purporting to emanate from the "United States department of national coast defenses," urging German veterans residing in Germany or elsewhere who have become citizens of the United States, either to "enlist in the service of the United States or else contribute to the war funds."

Andrew D. White, United States ambassador to Germany today published a statement setting forth that the appeal is either a fraud or a joke, as no such department exists and as no such appeal has been authorized by the United States government.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at Dreier & Bros.' drug store. Regular size 50c and $1.00. Guaranteed or price refunded.

The Sure La Grippe Cure.

There is no use suffering from this dreadful malady if you will only get the right remedy. You are having pain all through your body, your liver is out of order, have no appetite, no life or ambition, have a bad cold, in fact are completely used up. Electric Bitters is the only remedy that will give prompt and sure relief. They act directly on your liver, stomach and kidneys, tone up the whole system and make you feel like a new being. They are guaranteed to cure or price refunded. For sale at Dreier & Bros.' drug store, only 50 cents per bottle.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

Just What You Want.

An artistic booklet entitled "Summer Outing," published by the Nickel Plate road, describing vacation resorts along south shore of Lake Erie, also find list of country homes open to country boarders, sent to any address on application to B. F. Horner, General Passenger Agent, Cleveland, O.

Youngstown Won the First Game From Fort Wayne on a Home Run by Steen--Other Games.

Fort Wayne played its first game of the season with the Youngstowns yesterday and the rejuvinated tail enders won. Reiman and Knepper were opposing pitchers and both did fine work, the Hoosiers solving Knepper in only one inning. Joe Steen won the game for Youngstown in the eighth inning by hitting for a home run with two men on bases. A pretty feature of the game was a triple play by the Fort Waynes, the second the Hoosiers have made on the Youngstown grounds in three seasons of the Inter-State league's existence. The attendance has increased since the Youngstown's commenced to win a few games. Score:

FIVE MILLIONS.

The Sum Dr. Herz Demands of French Government.

The State Department Interested in the Case--Was Arrested and His Property Confiscated.

LONDON, June 2.—Documents proving the American citizenship of Dr. Cornelius Herz, who was prominently connected with Panama canal matters, are now on their way to Washington. It is said that Secretary Day has informed Dr. Herz that if he can show he has done all possible without avail, through his lawyers, to obtain compensation from France for his seeming persecution, the United States will take up his case. Consequently the sworn proofs of his American citizenship are now on their way to the United States.

It was announced in January, 1897, that counsel for Dr. Herz presented at Washington a claim for indemnity in the sum of $5,000,000 against the French government, for the alleged illegal attempt to prosecute Dr. Herz.

Dr. Herz, whose name stands very high in scientific circles as an electrician and physicist, although born in France of French parents, was educated in New York, and at the age of sixteen years served in the United States army.

He married an American woman, and when his children were born in Paris he caused them to be registered as American citizens at the consulate.

On January 19, 1893, while he was stopping at Bournemouth, Eng., with his wife, he was arrested under extradition proceeding on a warrant from the French government, charging him with fraud and embezzlement growing out of the Panama canal scandal.

Under the law a prisoner wanted for extradition must appear at the Bow street police court. Dr. Herz was confined to his bed by illness and so was unable to appear. The case was kept open and he was continued under arrest in his bed for four years. Then the British parliament came to his relief and passed a special act that permitted the magistrate to attend Herz's bedside and take his testimony.

This was done and the magistrate promptly declared that the charge was invalid and scarcely deserving of notice. Herz was thereupon released from arrest. Meanwhile the French government had instituted numerous proceedings against him in France and confiscated all his property and that of his wife. Dr. Herz alleged that this was persecution, pure and simple, and that the French government knew even before his trial that the charges against him were baseless. Therefore, claiming to have been injured in name and health and in other ways, he demanded that the state department should prefer a claim against the French government. Although he mentioned no sum, the brief showed that he demanded the sum of $5,000,000 in a letter he sent the crest of the French republic, which was never answered.

THE COURTS.

Dr. Arthur Dodge Gets a Judgment for $800 Against the Ryan Trucking Co.

Arguments were completed this morning in the suit brought by Arthur Dodge against the Ryan Trucking company. The jury retired at 11:30 and a. 2:30 returned a verdict of $800 for plaintiff.

WANTS AN INJUNCTION.

W. J. H. Probasco, administrator of the estate of Aaron C. Probasco, commences three suits against the Michigan Trust company for an injunction to prevent them from delivering property in the possession of Lucina Probasco when she died, alleging that it was a portion of the estate of Aaron C. Probasco and was to be held only in trust for his five children. W. G. Colerick penned the complaint.

LOCAL LINES.

Mrs. L. A. Blumenthal, of Logansport, is the guest of friends in Fort Wayne.

Amos Mohler, of Huntington, is in Fort Wayne the guest of his son, O. E. Mohler.

J. H. Spencer, life president of the Theosophical Society of America, has arrived in the city and will lecture this evening at Vordermark's hall, on Calhoun street.

Mrs. Con Shank, of Chicago, is in the city visiting the family of George Staub and other friends. She is the mother-in-law of Frank Falke and for a number of years resided in this city.

The Missionary society of the Baptist church will be entertained at the home of Mrs. McClellan, 15 Cass street, Friday afternoon from 2 to 5 by Mrs. Wm. H. McClellan. Mrs. C. O. Essig and Mrs. J. L. Currier.

Frank Johnson, a drunk, was sent to jail by Mayor Scherer this morning. Thomas Maher, a train climber, was ordered to leave the city. Two young men, Thomas Hendricks and Frank Kammel, were arrested by Detective Harrod on a charge of being tramps. They are aged seventeen years and were sent to jail pending an investigation as to who they may be.

A sample of WAYNE GRAHAM CRACKERS has been left at your home. You will be disappointed if you buy any other than the Wayne after having tasted the sample.

The Inspector's Report.

"Dear Sirs: I have made an examination of the Cliff Dwellers' mine, and report that the ore is there as represented, that it assays high, that it is there in plenty, but to get your supplies and your ore out you will need a packtrain of bald eagles."

NERVOUS DEPRESSION.

[A TALK WITH MRS. PINKHAM.]

A woman with the blues is a very uncomfortable person. She is illogical, unhappy and frequently hysterical.

The condition of the mind known as "the blues," nearly always, with women, results from diseased organs of generation.

It is a source of wonder that in this age of advanced medical science, any person should still believe that mere force of will and determination will overcome depressed spirits and nervousness in women. These troubles are indications of disease.

Every woman who doesn't understand her condition should write to Lynn, Mass., to Mrs. Pinkham for her advice. Her advice is thorough common sense, and is the counsel of a learned woman of great experience. Read the story of Mrs. F. S. Bennett, Westphalia, Kansas, as told in the following letter:

"DEAR MRS. PINKHAM:—I have suffered for over two years with falling, enlargement and ulceration of the womb, and this spring, being in such a weakened condition, caused me to flow for nearly six months. Some time ago, urged by friends, I wrote to you for advice. After using the treatment which you advised for a short time, that terrible flow stopped.

"I am now gaining strength and flesh, and have better health than I have had for the past ten years. I wish to say to all distressed, suffering women, do not suffer longer, when there is one so kind and willing to aid you."

Lydia E. Pinkham's Vegetable Compound is a woman's remedy for woman's ills. More than a million women have been benefited by it.

RELIGIOUS MEETINGS

The Christian and Missionary Alliance Convention.

Meetings of Great Spiritual Power Being Held by Rev. Eldridge--Fine Singing.

The services of the Missionary and Christian Alliance convention being held in the city, conducted by Rev. G. N. Eldridge and wife, are growing in interest and power with every service. The attendance last evening in the Y. M. C. A. building was very large, and Rev. Eldridge preached a very powerful sermon on the baptism of power. At the close of the sermon a telegram was received from the famous Ohio quartette, composed of Rev. D. R. Myland and wife, Rev. D. W. Kurr and Edwin L. Bowyer. These special workers are on their way east from St. Louis, and will remain in this city today and tonight. The meeting today at 10 o'clock was well attended, and short addresses were delivered by Rev. Eldridge, Mrs. Eldridge and Rev. Kurr. The quartette sang several very beautiful selections. Another great service was held this afternoon in the Berry Street M. E. church. The meeting tonight will be held in the Berry street M. E. church, and it is expected that an immense crowd will attend. The quartette will be at the evening service, and a meeting of great spiritual power will be held.

Charles Fisher Becomes a Government Electrician.

Has Been Assigned to Admiral Dewey's Squadron at the Philippines—Shop and Rail.

One of the employes of the Electric corporation is in receipt of a letter from Fred Mensch, now located at San Francisco, Cal., in which the writer states that Charles Fisher has enlisted in the United States navy and is now an electrician on board the Charleston, bound for the Philippines. Mr. Fisher resided in this city several years ago and was employed in the electric works. He went to San Francisco to take charge of a lighting plant and when war broke out he resigned and has been succeeded by Mr. Mensch.

WILL NOT BE BUILT HERE.

Yesterday's Indianapolis Journal stated that in case the war with Spain is soon ended the Pennsylvania will begin the building of thirty of the new class of freight locomotives at the shops in Fort Wayne and Columbus, and that 100 will be built at the Altoona shops. Inquiry at the shops in this city did not confirm this bit of news. One of the officials said that the Pennsylvania had under contemplation the building of 100 of those engines at the Altoona shops, and if the work was accomplished thirty of the engines would probably be put into service on the Fort Wayne road. But he had no information to the effect that any of the engines would be built here. A week ago a telegram from Philadelphia was published that 100 engines of the class mentioned would be built in Altoona and added that the engines would be of the largest kind, weighing, when in working order, 218,000 pounds.

General and Local Gossip.

Master Mechanic B. Fitzpatrick went to Chicago this morning on railway business.

John Dickson and Fred Roembke, Nickel Plate firemen, are taking a few days' recreation.

Fay Chappelow has been transferred from the testing room at the electric works to the laboratory.

Brakeman J. Hufty, of the Nickel Plate, has taken a few days' lay off to visit friends out in the country.

After an illness of a week, Brakeman H. C. Needhammer reported for duty on the Nickel Plate yesterday.

This morning the Electric corporation sent a 2,000-light dynamo to the Wellman-Dwire company, St. Louis.

William Donnell, of the polishing room at the electric works, was fifty-five years old yesterday. He worked as usual.

F. W. Ropa and O. W. Lehman, of the Pittsburg planing mills, are taking a lay-off to look after some business matters.

Charles Green, of the electric works, is engaged in wiring the new house of S. F. Hunting, on Washington boulevard.

F. Kramer, painter at the Pittsburg shops, and his wife, left last evening for Minnesota, where they will visit a few weeks.

Engineers Thomas Ozier and George Quidore are taking a brief rest from their labors. They are Nickel Plate employes.

Machinist E. Zorbaugh, of the Pittsburg shops, has returned from Little York, Pa., where he attended the funeral of his sister.

Machinist P. J. Singleton, of the Pittsburg shops, is out after an illness of three weeks. He expects to be able to resume work next Monday.

Bert Binius, machinist at the Wabash shops, has gone to the company's hospital at Peru for treatment. He has been ailing for several days.

Foreman R. H. Harrison is detained at home by the serious illness of his wife. The lady had been reported better, but yesterday she suffered a relapse.

C. L. Miller, stationary fireman at the Wabash shops, is preparing for a visit with friends and relatives in Council Bluffs, Iowa. Mrs. Miller will accompany him on the journey.

As an evidence of the improved condition of business over last year, the Indianapolis Journal says that "25 to 30 per cent. more men are now employed in freight houses than at this season of 1897."

A big crowd assembled at the Pennsylvania depot last evening to greet the train load of naval recruits who passed through the city. They were all young men—some being mere boys—but they will no doubt make good sailors.

Next Sunday lower rates from the Pacific coast to Chicago and New York will go into effect, second-class only being effected. The rate from San Francisco to Chicago, second class, will be $32.50; from the coast to New York, $42.55.

Charles Komp, an employe at the Kerr Murray works, met with an accident last evening that cost him a finger. He had one of the fingers of his right hand caught in a machine and so badly crushed that it had to be removed. Dr. C. C. F. Nieschang dressed the injury.

The largest force is now employed at the shops of the Vandalia in Terre Haute in years, and in the month of May more work was turned out than in any month in the road's history. Traffic has been so heavy that repair work of late has been unusually large.

Louis Kopp has resigned his position in the Wabash machine shop and will leave the city. He is a fine workman and the foreman at the shops said he was sorry to see him quit that establishment.

The veteran machinist, C. W. Dwelley, of the Wabash shops, is going to take a vacation soon, during which he and his wife will visit their married daughter at Kansas City. Mrs. Dwelley will remain down there several weeks.

O. E. Bradway, J. A. Graham, Enoch Cox, J. H. Fry and Hugh Hogan will go to Rome City tomorrow to look over the field and arrange for the shopmen's annual picnic. The gentlemen named compose the committee on grounds.

Next week Mr. and Mrs. John Offen will visit friends in St. Louis and vicinity. He is a machinist at the Wabash shops. Mrs. Oscar Johnson, whose husband is a fireman for the same company, will also visit in that city next week.

The "Electric," the private car of President Norval Greene, of the Western Union company, is receiving the finishing touches in the Pittsburg shops in this city. It has been revarnished inside and out and presents the appearance of a new car.

Last evening occurred the marriage of Fred Schieferstein and Miss Gertrude Schmoling. The couple had fitted up a house on Buchanan street and repaired there immediately after the wedding. Mr. Schieferstein is employed in the Pittsburg lumber yards.

A special meeting of the Electric Relief union has been called for tomorrow evening, at the hall, 138 Calhoun street, for the purpose of electing officers. The annual excursion committee will also be selected at this meeting and it is desired that there be a full attendance.

The Western Gas Construction company never had better business than it is enjoying at present. The shop is now working the largest force it ever had and there is talk of putting on a night force. There are enough orders on hand and in sight to keep the works running at full capacity for two or three months.

R. M. Germain, passenger engineer on the Nickel Plate, has taken a three weeks' vacation and tonight will leave for New York state to visit the scenes of his boyhood. He will be accompanied by his brother from Chicago, who is also an engineer, having a run on the Chicago and Alton road.

Roy Jackson has resigned his position at the electric works and last night left, over the Wabash, for Los Angelos, Cal., accompanied by his sister. Mr. Jackson has secured a good position at his trade at that place and expects to reside there in the future. His parents moved there about a year ago.

There is trouble brewing for the Lake Erie and Western. Some time ago the company discharged A. M. Johnson and Asa Ridenour, passenger conductors, without assigning any reason for the dismissals. The employes of the company are now demanding that the men be reinstated, and if their demands are not granted, they may try to force them.

When the Belt road at Indianapolis was first put in operation it was managed by the company which built it and owned the stock. Then $1 was charged for handling a car and the road did a business of $7,000 per week. It was a gold mine to its owners, but they leased it, fearing a falling off in business. The line is now handling 23,000 cars a week, which at the rates charged by the original company means an earning of $23,000.

N. W. Bloom, the undertaker, while working about the city Y. M. C. A. building yesterday, fell from a ladder and sustained a severely sprained ankle. He was removed to his home and was there attended by Dr. Ruhl.

Cure a Headache in 15 Minutes

A CHANCE TO ENLIST

Twenty-eighth Battery Needs Fifty-five Men.

Captain Ranke Ordered to Fort Wayne to Secure Recruits for His Company—Decoration Day in Camp.

The following letter has been received by THE SENTINEL from a soldier of the Zollinger battery and on many accounts it will be read with more than ordinary interest:

HEADQUARTERS TWENTY-EIGHT LIGHT BATTERY, IND. VOL., CHICKAMAUGA PARK, GA.,
Tuesday, May 31, 1898.

Decoration day for the soldier boys of Fort Wayne was spent this year in a very different manner than has been their custom heretofore. Instead of turning out in cleanly brushed and pressed uniforms, with white collars and cuffs, and parading through the streets of our home city and out to the Lindenwood Cemetery, there to wait for the never failing shower of rain to come up and drench us through to the "hide," this day found the boys of the battery enjoying a holiday in this beautiful and famous park far away from home. Most of the day was spent in sitting around camp quarters reading Fort Wayne papers, which, by the way, are now regularly received by a number of the men, and also pouring through long and apparently very interesting letters from loved ones at home, while others could be found in somewhat distant and lonely parts of the woods near the camp sitting under trees writing to M———, known only to the writers.

We were not disappointed, however, in the customary Decoration day rain, for shortly after dinner mass, dark clouds were visible in the distant northwest and soon could be heard the rumble of thunder as the rain loaded clouds drew nearer.

It was not long before the soldiers were scampering around taking in ticks, blankets, and the Monday washing out of the way of the rain. Tents were closed and fastened down tight and then all laid back and waited patiently for the shower to blow over. The rain poured down in torrents for nearly an hour and some of the men who had dug cellars under their tents were unfortunate in having them flooded, thus spoiling butter, cheese, sugar and other extras that were stored away there.

A bath is now considered a luxury as well as a necessity. Last Saturday naturally suggested a bath and quite a number of the boys mounted mules and horses and rode bare back over to Chickamauga creek, about four miles from our camp, and bathed in the stream. The mere mentioning the name of this creek will doubtless bring back to the minds of some of our Fort Wayne veterans recollections of the past. The stream is narrow, swift running and in some places quite deep and is the only good bathing place near our camp.

Captain Ranke has just received orders to muster enough more men to make a six-gun battery. This means that fifty-five more men are needed, as the muster roll now numbers 125 men and to make a full six-gun battery it requires 180 men, all told. It is desired that the most of this number be recruited from Fort Wayne and vicinity, and to this end Captain Ranke will leave tonight for Fort Wayne to muster in those who desire to enlist.

The artillery is considered by those who are in it as the best branch of the United States army and at Indianapolis there were considerable more applications for membership in our battery than were needed, after those who failed in the medical examination were returned home. The full quota could doubtless be obtained at this camp if the effort was made, but by special arrangement by Captain Ranke, permission has been granted to muster in the necessary number from our home town.

This will certainly be very welcome news to quite a number of men at Fort Wayne who could not get into our company when we left home.

It is advised that all who desire to enlist in the service of our country in this little brush with Spain make arrangements to muster in when Captain Ranke, representing the old Zollinger battery, comes to Fort Wayne.

Due announcement will be given through the Fort Wayne papers of the time and place for mustering.

ONLY A FAUCET.

It's only a faucet in the kitchen sink, but it should be properly attended to. You would'nt employ a horse doctor just because it was only your little finger you had to have cut off. What's worth doing at all should be done right, and that is the only way we do our work.

H. F. Franke

TOO QUIET.

Secretary Alger Escapes From Washington to Philadelphia.

WASHINGTON, June 2.—The president was late in reaching his desk this morning.

During the forenoon callers from the two houses of congress were numerous, but a number that came early, including Representative Hull, of Iowa, chairman of the military affairs committee, and Representative Hager, of Iowa, did not waite to see him personally.

Others who came were mostly on war appointment seeking missions, and included Senators Morrill, of Vermont; Platt, of New York; Jones, of Arkansas, and Deboe, of Kentucky; and Representatives Foote, of New York; Richardson, of Tennessee, and Slayden, of Texas.

Though there was no news afloat as to developments at the front there was a profusion of uniforms at the white house, many of the volunteers now stationed at Camp Alger appearing in full uniform among the sight seers who nowadays throng to the office and home of the president.

Many of the men at the camp are taking advantage of opportunities to secure leave of absence from their detachments to make the rounds of the capitol.

That there was a total lack of official news at the white house of developments in the war situation was evident at 11 o'clock today, when Secretary Alger went in to see the President. He spent only a few minutes and on emerging said he came over to see if there was any news and announced there was nothing of significance. He then drove off, saying he would leave for Philadelphia immediately. Senator Callom, of Illinois, was one of the few who saw the president out of the number who sought personal interviews. He had a long conference.

A Cure for Heartburn.

The burning sensation in the stomach, the pains and suffering which I experienced for five long years, brought on by continued constipation and biliousness, are almost indescribable. I tried every known remedy without effect. Finally I tried Ramon's Liver Pills and Tonic Pellets, following the directions carefully. After taking a few doses I began to improve. I have not used more than three boxes and feel as well as I ever felt. My restoration to perfect health I attribute solely to the use of Ramon's Liver Pills and Tonic Pellets, and I only wish I could persuade others to do so as I did and be cured—Logan M. Nalls, Amsterdam, Va. For sale by Gross & Pellens, 94 Calhoun street. may24-eod1m

Stenographer and Notary Public in Office.

In olden times a leper was stoned out of town; in modern times a sick man is stoned out of all his chances in life by the crowd of busy, hustling men who have no place and no use for him. A man who has bilious turns and tired feelings and frequent "off-days" might as well go out of business. These things are bad enough in the self-disgust and wretchedness they involve if they do not go any further. But you never know what is going to develop in a half-nourished, bile-poisoned constitution. If a man as soon as he feels that he is not getting the forceful strength and energy out of his food that he ought to, will begin taking Dr. Pierce's Golden Medical Discovery, he will soon put himself in the position where he can do a man's work easily and cheerfully.

His appetite will be sharpened; his liver invigorated; his digestion strengthened; an edge put on his whole nutritive organism. Those subtle poisons which debilitate the entire organism and invite consumption and a host of other diseases, will be driven out of the system; and he will gain plenty of pure nourishing red blood, muscle-power and nerve-force. In short he will be a man among men.

There are hundreds of delusive temporary stimulants, "malt extracts," sarsaparillas and compounds, which are more or less "boomed" by merely profit-seeking druggists, but an honest druggist will give you the "Golden Medical Discovery" when you ask for it. If well-informed, he knows that its sales have steadily increased for thirty years and that it is the invention of an educated, authorized physician who for over a third of a century has had a large and profound study of chronic diseases.

Mrs. Clark Stanton arrived in the city yesterday from her home, in Cedar Rapids, Iowa, and is the guest of Mrs. John Orff.

Miss Clara Luken will return tomorrow from a nine months' visit in New York city. She will be accompanied by her uncle, Mr. Perry Lukens.

Mrs. August Crull entertained twenty-five ladies at a thimble party yesterday afternoon, in compliment to Mrs. Dr. John, of Milwaukee.

J. C. Boone, of Richmond, representing the Dickerson Loan company, was in the city last evening the guest of Councilman Peter F. Poirson.

Mr. and Mrs. W. W. Fiske, of West DeWald street, announce the engagement of their daughter, Lillian J., to Mr. Charles L. Wyland-Reese, of Chicago.

The Ladies' society of the Plymouth Congregational church will be entertained tomorrow afternoon from 2 to 5 at the church parlors by Mrs. Beaber and Mrs. Stopher.

Mrs. Rauner, living ten miles south of the city, who has been here for several months taking treatment, was removed to her home yesterday. She is not much improved.

Winfield S. John, of Spencer, Owen county, and William C. Wulber, of Lawrencoburg, Dearborn county, were in the city yesterday looking to their political fences. Mr. Johnson is a candidate for auditor of state, and Mr. Wulber for treasurer of state, subject to the decision of the democratic state convention.

Home Grown Strawberries.

The Greatest Grocery has arranged to handle the crops of several large growers of small fruits in this vicinity, which will enable us to supply all Fort Wayne with fine lucious berries, fresh from the vines.

The nice weather is ripening berries very fast and our receipts are much larger than we expected so early in the season. We had 25 bushels this morning and look for about the same quantity every day this week.

We have reduced the price of the very best berries to 7c quart when bought by the case of 16 quarts; also have some very good berries at 5 and 6c quart.

Cultivated Gooseberries, 8c quart.
Florida Pineapples, 15c each.
Fresh Green Peas, 2 quarts, 5c.
Evaporated Dried Apples, 6c lb.
Evaporated Dried Raspberries, 12½c lb.
Fresh Eggs, 9c doz.
Golden Rio Coffee.
Fresh Lake Fish.
Remember our Fresh Meat Market.
Chickens, ducks and turkeys dressed to order at

THE GREATEST GROCERY.

The ladies of the Wayne street M. E. church will give a supper in the church parlors tomorrow evening.

BERRIES, BERRIES.

The only place to buy strawberries cheap is at the New Keystone. Our price today and probably tomorrow will be 5c per quart.

THE NEW KEYSTONE,
238 and 240 Calhoun Street.

See the new neckwear at Reuben S. Patterson's.

Capt. J. C. Williams has organized a Wayne tent, K. O. T. M., base ball team and will accept a challenge from any of the city teams.

The Bicycle club of the Y. W. C. A. will make its regular run Friday evening, at 6:15. Everyone should bring their lanterns, as the return will be by moonlight.

Miss Zetta Casanave, who for two weeks had been the guest of Miss Rosa Rodabaugh, of 286 Washington boulevard, left for her home in Altoona, Pa., this morning.

The Fort Wayne Guards' muster roll, containing 102 names, has been sent to the governor. The Guards will meet Monday night, at the city hall, for drill and election of officers.

Edward camp, No. 3,127, Modern Woodmen, initiated one candidate last Tuesday night, after which Neighbor Seidel provided ice cream, cake and sherberts for all and a general good time was had. Quite a number of Woodmen will go to New Haven next Monday evening and visit the camp at that place.

Invitations have been received in this city to attend the wedding of Miss Margaret Manchester, of Elkhart, Ind., to C. C. Meyers, of the same city. The marriage will occur at the residence of the bride's parents, Wednesday evening, June 15th. Miss Manchester is well known in this city. Tuesday evening, June 25th, from 8 to 11 o'clock, Mr. and Mrs. Meyers will be given a reception at the home of Mr. and Mrs. F. M. Smaltz, of 353 West Main street, this city. Mrs. Smaltz is an aunt of the bride.

A LAD IN JAIL.

Hired a Wheel from A. C. Katt and Never Returned It.

Jacob Alt, aged sixteen, is in jail, charged with larceny. While Superintendent Gorsline was investigating the recent stealing of flowers he saw a wheel at the home of young Alt. The lad claimed he rented it for a friend. The superintendent made an investigation and learned that the wheel belonged to A. C. Katt and had been missing for two or three weeks. Mr. Katt doesn't recall that the lad ever rented it, but believes the bicycle was taken from in front of his store. It had been repainted, the number had been covered with putty and it did not present the appearance of the same wheel. The lad is being held. He was in the employ of L. O. Hull.

SCHLEY AS A HUNTER

How the Commodore Found the Spanish Fleet.

It is Not Guess Work, But Deep Canning.

Guns Near Being Called Out From the Chase.

Boldly Coated His Battleships at Sea and Then Flushed the Quarry in Santiago Bay.

(Copyrighted, 1898, by the Associated Press.)

WITH THE UNITED STATES FLEET, OFF SANTIAGO DE CUBA, May 29.—Via Port Antonio, Jamaica, June 2.—Four weeks after the victory of Rear Admiral Dewey at Manila Commodore Schley, in command of the flying squadron, had his shrewdness and pertinacity rewarded by finding the Spanish fleet in the harbor of Santiago de Cuba.

For ten days he lay, in the face of conflicting rumors and some cases of alleged verifications, insisted that the ships of Spain were trying to make a landing on the southern coast of Cuba.

This was evidently not in consonance with newspaper and official information and his opinion was not given much public weight. In fact, it is believed that some days before he proved the correctness of his diagnosis of the situation he was ordered to return to Key West.

However, new facts gathered by him in the meantime gave him still more grounds for belief as to his proximity to the Spaniards.

The captain of the British steamer Adula, who was interviewed at Cienfuegos, told of seeing the Spanish fleet in the vicinity of Santiago de Cuba, evidently awaiting opportunity to get in.

Captain Sigsbee, of the St. Paul, related how he had captured a Spanish coal vessel going in the harbor at Santiago de Cuba, and Commodore Schley argued from these two incidents that the fleet of Spain was waiting in some haven near Santiago de Cuba until such time as a visit, fruitless in its results, should be made there by the Americans, when, upon their departure, the Spanish fleet would run into the harbor.

Commodore Schley determined to make that visit and, on Friday night, he ran within six miles of the harbor. The St. Paul was then detailed and ordered to keep out of sight, with instructions to be ready at a twenty knot clip to bring news to the commodore at any moment.

From the American ships the Spanish batteries were in plain view, but no doubt under preconcerted arrangement, for they made no attempt to fire, and the flying squadron, after circling around, slowly steamed away in the direction of Key West, as its coal supply was becoming short.

There was a collier with the squadron, but there was no friendly harbor with smooth waters and there was serious danger of smashing the collier if an attempt was made to coal the heavy battleships at sea.

Resourceful and daring Commodore Schley showed forth, however, and at dark, with an original rigging to protect the ships, the Texas and the Marblehead began to coal. They worked all night and at daybreak had filled their bunkers.

By noon on Saturday the converted yatch Vixen had also coaled, and at 1 o'clock, not having heard from the St. Paul, the American warships moved again towards Santiago de Cuba.

First standing off the coast about fifteen miles, the squadron afterwards circled in front of Morro Castle, but not close enough in to get a view of the inside of the harbor, guarding carefully against the possibilities of a torpedo boat attack.

At night the squadron lay off a point of land, and in the morning (Sunday) the St. Paul came along, but did not report any knowledge of the Spanish fleet's whereabouts.

Consequently, Commodore Schley determined to find it.

With the flagship in the lead he started towards the harbor. The Spanish troops at the earth works and batteries could be seen, through glasses, preparing in haste to give the American ships as warm a reception as possible.

When about five miles from the batteries, the lookouts reported the masts of two ships, and Flag Lieutenant Sears and Ensign McCrully made out the first of them as the Cristobal Colon.

Two torpedo boats were also made out, and a second vessel of the Vizcaya class was seen. All this time Commodore Schley was upon the after bridge of the Brooklyn making good use of his binoculars.

Arrived at the harbor entrance, when the ships were sighted from the deck, he turned his eyes from the glasses long enough to wink and say:

"I told you I would find them. They will be a long time getting home."

The order to man the port batteries had been given and the men, stripped to the waist in a temperature considerably over one hundred degrees, awaited with impatience the word to fire.

But the commodore decided not to waste ammunition on the batteries and the men were disappointed.

For the time being, however, there was much quiet jubilation among the men over the prospect of a fight.

Commodore Schley showed his evenness of temperament by ordering the Massachusetts to take coal from the collier within view of the forts and warships of Spain.

On the Texas Capt. "Jack" Philip went through with the day's routine, including church services, at which the men, with a refreshing directness of suggestion, sang "Pull for the Shore."

As it was perfectly evident from the position of the Spanish warships on Sunday morning that they had either just entered the harbor, having learned of the supposed local departure of the American squadron, or had been in hiding in the bay, which is about nine miles long, and had run down to get out early Sunday morning.

In any case it was excellent proof of the perfection of Commodore Schley's tactics, and showed that, after weeks of weary following of clues furnished by strategy boards, in seven days he had succeeded in bottling up the Spanish fleet in one of its own harbors.

Less than two days before, two supposedly Cuban pilots sent from Jamaica by the government, had informed the commodore on the deck of the Brooklyn that no vessels of the size of the Spanish warships could go up the harbor, and, after this information had been politely received, the pilots were sent back to Kingston, although they desired to be landed in Cuba.

The latest maps of the harbor show a narrow but deep channel, fairly well protected, and supposed to be mined. The narrow neck is not wide enough to allow more than one ship at a time to pass up, and the batteries, unless reduced, would be very destructive.

There are three batteries outside and three small ones inside and between the entrance place and the city proper the distance is very nearly three miles up the bay, measuring from Morro castle.

The latest information in the possession of the government showed that at the narrowest point of the entrance near Morro castle there are three lines of electrically-worked mines, thirty in all. Besides this there are two sets of new batteries just opposite the Morro, forming with the latter a dangerous cross fire.

Just inside this are two batteries on the east shore, Estrella and Catalini. Cayo Smith, about half a mile up the bay and about in the center, where the narrow entrance widens out, has batteries of modern guns, as has also a Blanco battery, just near the city of Santiago itself. About two miles west of Morro, inshore, is the Case battery and there are also supposed to be some mines near Cayo Smith.

The armament of the various batteries is supposed to be as follows, not including the new earth works behind which there are modern guns:

Morro—Four modern guns and ten eighteen and twenty four-pounders.

Blanco Battery—Nine smooth bore, eighteen and twenty-four-pounders of little account and two small mortars.

Tan Estrella Battery — Ten smooth-bore guns.

Cayo Smith—Several modern guns.

The forts are mainly of brick and stone, constructed a century ago, although there are evidences of new earth works being thrown up.

The only view into the harbor for any distance is from the southwest, and, as the flagship passed along, Lieutenant Sears noted that the Spanish cruiser Reina Mercedes, which has been partly dismantled, lay in the harbor perhaps 1,500 yards inside of Morro Castle.

To the westward and further inside was the Spanish first-class armored cruiser Almirante Oquendo lying under the guns of Cayo Smith and in the east of it her starboard battery looking down upon the narrow channel, was the Cristobal Colon with room only for one ship at a time to pass.

It will thus be seen that it would be suicidal to attempt to force an entrance into the place at least, unless the batteries are reduced and that will consume a lot of ammunition.

At the same time taking it for granted that the remainder of the Spanish fleet, with four cruisers and two torpedo boats, is still further up the harbor, it means that the warships of Spain are effectually bottled up so that they can do no harm.

Sunday at sunset found the squadron in battle line outside Santiago, the Brooklyn on the east of the line, the Massachusetts next to her, the Iowa next of the Massachusetts and next the Texas which was on the extreme left, while the Marblehead and the Vixen scouted in shore.

To leave Santiago the Spanish ships would have to pass this seemingly impregnable barrier.

Monday May 30—The American fleet this morning retained its position off Santiago and no attempt was made during the night or morning, on the part of the Spanish fleet, to get out of the harbor.

The United States cruiser New Orleans arrived during the afternoon and joined the squadron, and the collier sterling also came along.

Born, to Mr. and Mrs. William C. Echele, of 75 Miner street—a son.

DEBATE WAS WARM.

Senator Butler Discusses War Revenue Bill.

Republican Party Blamed for the Delay.

Bill Calculated to Arouse Antagonisms.

Charges That the Republican Party is Under Obligations to Fulfill Promises to the Trusts.

WASHINGTON, June 2.—At the opening of today's session the senate passed a bill conferring American register upon the steamship China, one of the fleet of the Pacific Mail steamship company. The China has been chartered by the war department to transport troops to the Philippines. The China is now under the Hawaiian flag. Consideration of the revenue bill was resumed and Mr. Butler, populist, of North Carolina, addressed the senate. He regretted that the finance committee had not seen fit to present to the senate genuine revenue bill. In the circumstances the responsibility for delay in the passage of the pending measure rests, said he, upon those who have placed in the bill provisions that have no place in a revenue measure. He expressed his regrets that those holding peculiar views on the money question had seen fit to have the controverted bond finances incorporated in the measure, as it forced those who differed from the committee on those questions to discuss them. Senator Butler then made a characteristic attack upon the republican party, in the course of which he arraigned what he said was the determination of the majority of the senate to incorporate in the bill a provision for the issue of bonds. He made serious reflections upon the senate itself, charging that its majority had been "unduly influenced" upon the question of bonds.

The statement brought to his feet Mr. Gallinger, republican, of New Hampshire, who demanded that Mr. Butler make his charges more specific.

In the course of a colloquy between the two senators, Mr. Butler declared that immense sums had been contributed to the republican presidential campaign fund by the "trusts and monopolists and bond holders and money changers," and that 93 per cent of the money had been raised and paid over to the republican party uniform contract that certain legislation promoting the interests of the trusts and monopolies should be enacted.

URGENT DEFICIENCY BILL WAS PASSED.

WASHINGTON, June 2.—The house today passed a bill providing for the establishment of postoffices at military posts and camps.

Also a resolution directing a survey to be made of a channel from Ship Island harbor to Biloxi and Gulf Port, Miss., and a bill to return to the state of New York the flag carried in the civil war by the One Hundred and Fourth New York volunteer infantry.

Mr. Cannon, from the committee on appropriations, presented an urgent deficiency bill to supply deficiencies in the appropriations for the army and navy establishment for the present fiscal year, the appropriations to be available until December 31, 1898.

In committee of the whole Mr. Cannon explained the presentation of the measure. He said it was the policy of the committee on appropriations to hold back the general deficiency bill until practically the close of the session in order to catch up all the items that may develop as necessary up to the latest moment of the session. Meantime the present bill was urgent and had been reported for present consideration because its items could not wait upon the general deficiency bill.

Incidentally he estimated the appropriations already made on account of the war and likely to be made as essential including the first six months of the coming fiscal year, at $250,000,000. In response to a question from Mr. Dingley, Mr. Cannon said the war would cost approximately $600,000,000 provided it should continue one year. The urgent deficiency bill was passed.

FIFTY MILLIONS ASKED FOR WAR.

WASHINGTON, June 2.—The secretary of war today sent to congress a request for appropriations amounting to $50,897,358. These appropriations will be used for the equipment and maintenance, until January 1, 1899, of the 75,000 volunteers recently called for by the president. The several items are given as follows:

Pay of volunteers, $14,090,881.

Subsistence of the army, $5,147,477.

Regular supplies of the quartermaster's department, $2,500,000.

Horses for calvary and artillery, $1,000,000.

Barracks and quarters, $1,500,000.

Army transportation, $14,000,000.

Clothing for the army, $1,000,000.

Contingencies of the army, $50,000.

Equipment of engineer, troops, $35,000.

Signal service of the army, $37,000

Civilian assistants to engineer officers, $30,000.

CARNIVAL AND FAIR.

Citizens Must Hustle or it Will be a Failure.

Committee Will Meet This Evening in the Parlors of the Randall Hotel—Members Should Attend.

The committee having in charge the arrangements for the proposed carnival and fair will meet tonight in the parlors of the Randall hotel and every member should attend. Each committee will be expected to make a report. The report of the finance committee will be heard with the most interest. There is general disappointment at the result of the canvass made by this committee. The members thereof are discouraged and while there has been a generous response from many citizens those from whom the biggest subscriptions were expected did not respond with their usual liberality. The meeting tonight may determine definitely whether or not there will be a carnival. If the committees are not satisfied at the prospects and they do not look brighter than they do today the project will be abandoned.

There is no event which would boom Fort Wayne more than the street fair and carnival, but it takes money to make it a success, and if the locse is not forthcoming the committee feels that it can do nothing but cry quits.

Drs. Mettenar and Porter will leave on Saturday for Denver to attend the convention of the Medical Association of the United States. They go as representatives of the State Association of Indiana. Mrs. Mary McKesar will also be one of the party. The convention meets June 7 to 10, inclusive.

You can get WAYNE GRAHAM CRACKERS fresh through your grocer. No reason for taking a substitute. Insist on getting the "WAYNE."

CIRCUS TICKETS.

Plenty of circus tickets for all. Don't forget the circus is on Saturday, June 11th. Tickets given with every fifty-cent purchase or over at The New Keystone, 238 and 240 Calhoun St.

Mrs. Robert Drobisbles, of No. 79 West Jefferson street, is entertaining the Ambens club this afternoon.

Important to Know.

When buying Graham Crackers you should get the WAYNE. No other make will compare with the sample left at your home.

FLEETS MEET TODAY

Decisive Battle in Progress Between Schley and Cervera.

SCHLEY RENEWS THE ATTACK ON SANTIAGO

CAPE HAYTIEN, Hayti, June 2.—According to information received here from hitherto accurate sources, a decisive engagement between the United States and Spanish forces is expected to take place today at Santiago de Cuba.

ANOTHER ATTACK ON SANTIAGO.

NEW YORK, June 2.—The world's Port Au Prince special says that Commodore Schley renewed the attack on Santiago today and that 3,000 insurgents are making an assault on the land side.

A later dispatch says:

"It is reported from Santiago that the rebels have attacked the city in three columns and that a bloody fight is going on."

SAYS CERVERA'S FLEET IS DIVIDED.

LONDON, June 2.—The Spanish ambassador in London, Count Rascon, in an interview today, is quoted as supporting the assertion made in Madrid that the Cristobal Colon was the only important Spanish vessel in the harbor of Santiago de Cuba during the recent engagement there. One paper predicts that Admiral Cervera's movements are likely to furnish startling news in the near future.

SCHLEY'S FLEET REINFORCED.

[Copyrighted by Associated Press.]

KINGSTON, Jamaica, June 2.—9:40 A. M.—Advices received here from Port Antonio today say that Commodore Schley has been notified by the navy department that the battleship Oregon, the first-class armored cruiser New York, another cruiser and two colliers have been sent to Santiago de Cuba.

RULES FOR RIDERS.

Bicyclists and Teams Must Travel in the Same Direction.

Board of Works Will Make Rules for the Swinney Park Track—May Speed on Saturday Afternoons.

The board of works finds it necessary to make rules governing the riding of wheels and driving of horses on the Swinney park track. All the riders and most of the drivers turn to the right onto the track and then drive to the left, but some stubborn drivers go in the opposite direction and insist that they are living up to the law in driving to the right. Last night a young man and his sweetheart were driving on the track and they traveled in a direction opposite to every bicyclist who was out for a few hours' pleasure. The board of works will tonight adopt a rule, that everybody must travel in the same direction while on the track and the park officer will be instructed to enforce the rule.

WANT TO SPEED SOME.

This morning Harry Templar handed to the mayor a petition signed by himself and seventy-seven others requesting on behalf of Fort Wayne bicyclists that they be permitted to use the Swinney park track for speeding purposes between the hours of 2:30 and 5 o'clock p. m. every Saturday. In the petition the bicyclists agree to offer entertainment to these persons who do not ride. The petition will probably be granted by the board of works at tonight's meeting.

WILL LICENSE PLUMBERS.

The board of works has prepared an ordinance licensing all plumbers. It requires that each plumber desiring to do business in Fort Wayne must pay $2 yearly for a license, and give a bond of $5,000 that they will properly repair all streets where excavations are made. It also requires the plumber to take out a permit for each separate excavation in a street and compels him to notify the board of the time at which he intends to do such work. The ordinance will be introduced at the next meeting of the council.

SLIGHTLY SORE.

The board of works will tonight hear objections to proposed alley and sidewalk improvements. They will also consider the assessment roll for the straightening of Creighton avenue and Hoagland avenue.

NEW SANITARY OFFICERS.

The board of health at a meeting held yesterday afternoon removed Sanitary Officer Louis Heck and Stephen Drew and appointed to the vacancies F. W. Miller and A. J. Aubrey. The new officers qualified this morning.

THE FIRST DESERTER

A Cuban Volunteer Returns a Prisoner.

Accompanied the Florida's Cuban Expedition.

Showed the White Feather and Hid Himself.

Further News of the Attack on Santiago de Cuba—Cardinal Leyden Challenges Two Spanish Gunboats.

TAMPA, Fla., June 2.—The transport Florida, which left here over two weeks ago with one of the largest expeditions for the arming and reinforcement of the Cuban army ever sent out from Tampa, returned here today.

Confined on board with the grave charge of desertion against him is an American, who enlisted in the Cuban volunteers, who were sent in the Florida, but who, according to Captain Silver, who was in command of the expedition, at the last moment, when all the supplies had been landed and the volunteers were ready for their march into the interior, showed the white feather and ignominiously hid himself on board the transport.

The man's name is said to be Tate. He lives in Tampa and joined the volunteers some time before their departure. This was not discovered until some time after the Florida had left Point Rance, where the landing was made, and though at first there was strong inclination to turn back and put Tate on shore, it was finally decided to bring him to Tampa as a prisoner.

THE ENGAGEMENT AT SANTIAGO DE CUBA.

ON BOARD THE ASSOCIATED PRESS DISPATCH BOAT DANDY, OFF PORT ANTONIO, June 1—(Delayed in transmission)—The squadron commanded by Commodore Schley attacked the batteries at Santiago de Cuba yesterday afternoon and also engaged the ships of Admiral Cervera, which were lying in the harbor.

The Spanish flagship Cristobal Colon was struck twice by shells fired from the Massachusetts, and the Spanish batteries were badly damaged by the fire of the United States cruiser New Orleans.

The Spaniards fired about three hundred shots and the Americans fired about one-fourth that number.

No American vessel was hit and no one on board the American ships was injured.

The Spanish loss was not heavy.

CLYDE STEAMER FANITA LEAVES CAPE HAYTIEN.

[Copyrighted, 1898, by the Associated Press.]

CAPE HAYTIEN, Hayti, June 2—8:15 A. M.—The Clyde line steamer Fanita, Captain Wators, which arrived here yesterday half empty, bringing from New York provisions for the navy, which she landed at Matthewstown, Great Inagua, in the Bahamas, shipped away at about 10 o'clock last night, with between seven and fifteen Dominicans added to her crew. She was to touch at Monti Cristi, Dominican republic, or at the Keys, just outside, to fill up the empty portion of her hold. She had on board Chris. Roberts, of Great Inagua, the most famous pilot of the West Indies.

The captain of the Fanita, when the vessel was here, said the portion of her cargo which was not loaded consisted of coal, but there is good reason to suppose that it is something very different from coal.

Proof that the Fanita is under serious suspicion was afforded this morning by the excited conduct of the Spanish consul here. He denounces the taking on board the steamer of Spanish-speaking roustabouts and the sudden sailing of the vessel without notice and without the permission of the Dominican consul. The Spanish consul classes this as a great outrage and an act of piracy, and a formal protest has been entered with the Haytien authorities.

The Spanish consul telegraphed to his diplomatic chief at Santo Domingo this morning about the Fanita. There are large numbers of Cubans in Dominica who eagerly desire to return to Cuba and take part in the war, and the correspondent here of the Associated Press is informed that the Spaniards of this place believe that it may be part of the mission of the Fanita to afford these Cubans transportation, at the same time furnishing them with arms and ammunition.

LEYDEN CHALLENGES SPANISH GUNBOATS.

[Copyrighted, 1898, by the Associated Press.]

KEY WEST, Fla., June 2—7:30 A. M.—The tug Leyden, which has been scouting along the northern coast of Cuba, had an adventure with three small Spanish gunboats at Cardenas yesterday.

The Leyden has been playing lady and seek with the enemy's gunboats for some time, without an encounter. Yesterday morning before daybreak she ran into Cardenas harbor to a point within five miles of the city. There are two parallel lines of keys and the Leyden had just skirted the outside line when she sighted three Spanish gunboats beyond the inner line, slowly moving towards the sea. The tug sent in a couple of shots from her six-pounder, but the Spaniards ordered thought she was backed up by big warships, for they promptly withdrew without replying to the challenge of the brave little craft, which scuttled out to sea again.

The Leyden also confirms the story of the affair on the destruction of two Blockhouses between Matanzas and Cadenas, an account of which was given in yesterday by the auxiliary cruiser Uranus, formerly the Walter A. Luckenback, which had participated in the miniatures bombardment. The Leyden lost a gaff during the fight, but was otherwise undisposed.

The Spaniards, it is now united, are filling Cardenas harbor with old hulks, before and other obstructions in order to prevent any effective entrance of the American ships.

SAN FRANCISCO'S CREW SUFFER FROM WEATHER.

BOSTON, MASS., June 2.—The United States cruiser San Francisco arrived today with ten of her seamen ill. The men were transferred to the Naval hospital at Chelsea. This is the second time during the week that the coast patrol cruiser has landed sick men here.

The sailors on the San Francisco have been necessitated to warm climates and the rough weather which has swept over the coast during the last ten days has left twenty-three of them up in the hospital at Chelsea with pneumonia, measles or serious colds.

ANOTHER BRITISH STEAMER CAPTURED.

KEY WEST, Fla., June 2.—10:30 A. M.—The British tramp steamer Bengal, of Glasgow, was sighted off Florida Keys yesterday. As she did not hoist her colors when signalled she was hove to by a shot. Admiral Cervera's coal is being unloaded from the Restormal at the station dock. It will be bid in by the United States, and will be used for our ships.

MRS. A. J. READ DEAD.

Passed Away at the Home of Her Son This Morning.

Suffered a Stroke of Apoplexy Yesterday, Which Rendered Futility—Other Deaths.

Mrs. Marin Read died this morning at 9:10 at the home of her son, Chas. E. Read, No. 137 Edgewater avenue. Mrs. Read had been in apparently good health until yesterday afternoon, when she suffered a stroke of apoplexy. Her condition was serious from the beginning and she grew rapidly worse until this morning when she passed peacefully away.

Mrs. Read was born Maria Patterson and was wedded to Ambel J. Read in April, 1815. To them were born two children, Charles E., one of the proprietors of the Finley clothing house, and Esther, now the wife of George Brown, of Lafayette. On May 15 of this year the aged husband died at his home on West Main street and now the wife goes so soon to join him in the world beyond.

SACK.

Miss Rosa Sack died at the home of her parents, at Hesse Castle, on Wednesday evening. She was the daughter of Mr. and Mrs. Henry Sack, and was twenty-one years of age. The cause of death was dropsy. She had been ill seven years, and had lived in Marion township all of her life.

WAGNER.

Rudolph Wagner died at his home, at 441 Hanna street, yesterday afternoon. Deceased was seventy-three years of age, and had long been a resident of Fort Wayne. He leaves a wife and family of grown children. The cause of death was old age. The funeral will occur from the residence Friday afternoon. Rev. H. Juengel will officiate.

QUAY'S VICTORY.

Col. William A. Stone Nominated for Governor of Pennsylvania.

HARRISBURG, Pa., June 2.—Colonel William A. Stone, member of congress from Allegheny, was today nominated for the governorship of Pennsylvania by the republican state convention. His nomination is a victory for Senator Quay, against whom the Wanamaker faction has been fighting.

In a letter to the convention Mr. Wanamaker withdrew from the gubernatorial race and asked his supporters to vote for Charles W. Stone. The first ballot resulted: W. A. Stone (Quay candidate), 168; C. W. Stone (Wanamaker candidate), 162. The fight practically closed yesterday when Senator Quay, who came here for a few hours and returned to Washington last night, advised his friends that Col. W. A. Stone was his choice.

The platform endorses the administration of President McKinley, favors vigorous prosecution of the war and re-affirms the national republican platform of 1896.

FREE TICKETS.

Thieg & Co. will give their customers free tickets for the Norton & Jones' circus. Come in and get them. They cost you nothing.

S. B. Thieg & Co. 32 Calhoun Street.

Large Red Seal.

Born, to Mr. and Mrs. William Scantling, of East Jefferson street—a son.

NOTHING IS HEARD.

Schley Has Not Yet Sent Official Advices.

Navy Department Waiting for His Dispatch.

The Santiago Job is Not Yet Completed.

Schley Has Uncovered the Spanish Admiral's Resources and the Real Will be Lay.

WASHINGTON, June 2.—It was stated authoritatively at the navy department at noon today that not a word had been received from Commodore Schley as to the engagement at Santiago. The officials express no surprise at this delay and announce that on several grounds. In the first place it is said that a fleet commander must await until an engagement is completed before he makes his report, that the press reports may give only the initial features of an action without waiting for its completion. There are intimations that the press reports cover only the first features of Commodore Schley's movements, and that until those movements were developed to the point where the results in view were actually achieved, reports would not be made on incidental phases of the general movement.

Moreover, it is pointed out that the fleet commander must communicate with all the commanders of the ships making up his fleet, in order to learn as to casualties, damage and all the circumstances of the engagement.

When thus informed his report is made deliberately, and this in turn must be translated to the naval cipher code. When received here there is another delay in deciphering the code dispatch.

Altogether, it is said that the care in preparing official dispatches makes them about twenty-four hours behind the press advices. It was thought that the absence of exact official information might embarrass the work of the war board, but officials say this has not occurred.

The official intimation that the action of Tuesday is only the initial phase of a more general movement is strengthen by the view that Commodore Schley would hardly attempt an attack unless he had some definite object in view. This object, it is believed, is to learn exactly as to the number of Spanish ships now within Santiago harbor, and also to develop the effectiveness of the fire and of the ships forcing the entrance of the harbor. With these two points established beyond the slightest doubt, the campaign, military and naval, could be executed against Santiago with much greater certainty as to results.

While the navy department has been satisfied for the last two days that Admiral Cervera's entire fleet is in Santiago harbor, Commodore Schley has not yet been able to make an official report establishing this fact beyond the shadow of a doubt. Of course, the locating of this entire Spanish fleet, not excepting a single vessel, large or small, is of essential importance to the complete and intelligent determination of a strategic campaign.

It would remove the last element of hazard in sending troops from Tampa or Jacksonville and the danger of their being harrassed to the rear by some of the Spanish ships. It is of equal importance that the present strength of the shore batteries, their location, number of guns and general effectiveness should be established. These points can be learned only by a feint which feels the outward appearance of an assault upon the Spanish defenses.

When completed it is felt that it will serve as a basis for more complete advices as to the actual situation of affairs at Santiago harbor than have been available at the navy department up to this time.

It is in this light that Commodore Schley's movement is regarded as important, not so much from the destructive results achieved as from the opportunities it affords for developing all the resources at the command of the Spanish admiral.

FRIDAY AND SATURDAY.

At Lehman's Clothing House—Points of Interest.

300 dozen Peyser linen collars, guaranteed 2,100 linen and four-ply, all styles, all sizes, at 10 cents.

A line of all-silk Teck scarfs, for ahead of many 50 cent values in Fort Wayne, Friday and Saturday at 25 cents.

Boys' Brownie overalls, ages 3 to 15, blue or black, at 25 cents.

Celluloid collars at 5c.

Celluloid cuffs at 10c.

Good quality working shirts, 25c.

Men's blue check cotton working jackets, 25c.

Painters' overalls, white, with apron, 35c.

Take your pick out of 250 men's crash suits.

All sizes, all styles, just the thing for hot weather, at $1.00 per suit.

LEHMAN'S,

34 and 36 Calhoun Street.

Walter Law, of Dayton, Ohio, is the guest of his sister, Mrs. Will Noble.

CERVERA will take care that the next bottle he crawls into is open at both ends.

TO HAVE time Spain can check off in advance several "and but glorious day"s for the month of June. Her troubles are going to multiply.

The bombardment of the Santiago batteries by Commodore Schley's ships is claimed by Spain as a victory, probably because Cervera's fleet was not sent to find 'em bottom.

TEN or a dozen years ago the Canadian government disenfranchised the Indians who were living on reservations. A clause in the new franchise bill now before parliament revokes their disenfranchisement puts them on a level with savages again. The main argument in favor of the clause is the Indians' susceptibility to bribery, which appears weak reasoning in this age of political knavery. Some very white men are political Indians.

PEACE may come before Spain is thoroughly whipped by the forces of the United States. Spain's exhausted credit is the most powerful ally Uncle Sam can have, for nations without credit cannot wage war.

BRIGHAM YOUNG'S son, now a resident of London, has just been declared bankrupt. This is a case where the son shows a marked contrast to the father. The latter, notwithstanding enormous expenses resulting from frequent purchases of many bonnets, gowns, etc., not only kept out of bankruptcy, but managed to lay aside a tidy fortune. There would have been some excuse for Brigham had he "gone broke," but apparently there is none for his descendant.

WHEN the first call for volunteers was issued Alaska felt slighted because she had not been asked to furnish her quota of men. Now that more volunteers are called for it is said to be the intention of the war department to permit as many Alaskans as desire to volunteer. This will be good news for the men who have been enjoying the winter season at Dyea, Skagway and other northern resorts. Most of them are pining for something hot and are ready to take it in any form. Even a hot fight or Cuban climate will do.

WHILE Americans have for the time being lost practically all interest in the Klondike, our Canadian friends are more active than ever in getting afoot plans for the development of that region. The dominion parliament will be asked to sanction a new enterprise of building a railroad to Hudson bay and thence to Dawson. It is an old plan enlarged to fit present needs, but it does not necessarily follow that the road will be built immediately. The Canadian system of granting heavy subsidies to new railroads invites schemes of this character, many of which are hardly bona fide.

WILL plans which have just been made public by Secretary Alger disclose the intention of the government to place Porto Rico under control of the United States. While it has been accepted as settled that Porto Rico is to be occupied, this is the first official intimation of the plan. The campaign of invasion contemplates the sending at once of 20,000 men to Cuba, to be followed by 50,000 more as soon as that additional number can be made ready. Doubtless it is the intention to return to the complete reduction of San Juan as soon as the American fleets have dispersed of Cervera's squadron and forced the capitulation of Santiago. Sampson has already started the destruction of the San Juan defenses, and the location and strength of the batteries are known to him.

COMPLAINT has been made that "rear admiral" is an inapt title for a man so eminently equalified for keeping in front as is the conqueror of Manila. The point is not illtaken, but designations of rank are queer, anyhow, and few of them will stand much examination by philologists. And "admiral" itself is about the queerest of the lot. The word is the remnant of an Arabic phrase, of which the beginning was "ameer," or "emir," and it came to us—alas, that the truth must be told—straight from Spain. "Amiral-bahr" meant "ruler of the sea." When the "bahr" was dropped, of course, the article should have gone, too, but it didn't, and when some morewise person put in a "d" because he thought he knew that the word was fatty, it became as absurd a muddle as the dictionary contains—which is saying a good deal.

In spite of the fact that England and the United States are drawing closer together, the English people and press have still a great deal to learn about Americans. The misinformation extant in London is certainly remarkable. For example, one London journal has just informed its readers that in this country the professional bridesmaid is by no means a rarity. The paper proceeds to go into details and says that "at a recent fashionable marriage in New York there were fifteen bridesmaids, all paid ones. Beside their dresses, given by the bride's father, they received $25 each." According to the voracious English journalist who wrote this article, a great number of young ladies have adopted this new way of earning money. The prices charged depend upon the attractive appearance and social standing of the young women, but sometimes as much as $100 is paid, and, it is declared, one young woman has been in such great demand that she has officiated at more than 200 ceremonies and has made in a very short time more than $20,000, without counting presents. These London writers are certainly gifted in imagination.

COMPLAINTS MADE.

Key West Officials Charged With Harsh Treatment of Prisoners.

WASHINGTON, D. C., June 2.—The complaints made against the United States officers at Key West of improper treatment of the captives of prizes brought by American vessels are being daily reinforced and are creating so much dissatisfaction here that it would not be surprising if the prizes hereafter taken by naval vessels were ordered further north to Charleston for instance, thus depriving the Key West officials of the fat fees which they have been making from this source. First came the report through Admiral Sampson of cadet Jones' charges against the officials, which are now to be formally investigated by a naval court martial. The latest case is in connection with the British ship Restormel, which was captured off Santiago with a load of coal apparently destined for the Spanish fleet inside. This vessel was brought into Key West with a prize crew, and, although her British nationality was perfectly evident, the officials at that port for some explained reason, positively refused to permit the captain to communicate with the British vice consul. The British embassy here, being advised of the fact, made prompt representations to the state department, with the result that orders were forwarded without delay to the district attorney's office at Key West to at once put the captain of the Restormel in communication with the vice consul.

ROBISON PARK NOTES.

The depot loop at Robison park is being inclosed with wire netting and shoots are being built in the depot for loading the passengers on the cars. The shoots are arranged to hold just enough people to fill a car and will prevent the rush and confusion of the crowds on busy days.

Through the kindness of Manager Scott the children of the Allen County Orphans' home will picnic at the park Friday.

Pete Baker the favorite german comedian will appear at the Park theatre next week.

Friday night a grand musical concert and dance will be given at the park pavilion. The music will be furnished by the new Park orchestra.

The Lake Erie and Western railroad and Findlay, Fort Wayne and Western railroad will run special trains to the city Sunday.

The new theatre at the park will be completed in about three weeks.

RELIGIOUS CEREMONY.

Completion of the Marriage of George Vanderbilt and Miss Dresser.

PARIS, June 2.—The religious ceremony of the wedding of Miss Edith Stuyvesant Dresser to George W. Vanderbilt, took place at the American church here at noon today.

The civil ceremony was performed yesterday. There were 120 persons present today, including General Horace Porter, the United States ambassador to France, and Mrs. Porter; Chauncey M. Depew, Count and Countess Castellane, and the duchess of Marlborough, niece of the bridegroom.

Rev. L. L. Benson leaves today for Logansport, where he will deliver the address this evening at the Baptist church.

NEARING DAWSON.

Clarence Cook Writes a Letter From Alaska.

He Has Passed the Hardest Part of the Long Trip and Is Beginning to Enjoy the Arctic Scenery.

Clarence F. Cook, city editor of THE SENTINEL, writes the following interesting letter to his wife, dated Lake Bennett, May 13:

"Here, twelve miles from the head of Lake Bennett, our party is camped to remain until boats are built, the rest of the journey, nearly 800 miles, to be made on water. From this time until Dawson is reached will be more like a summer outing than anything else. These grand mountain and the beautiful stretch of lakes at this time is something extraordinary to look upon, but in the mild days of spring which are fast coming, nature is in her most pleasant mood, and the picture will then be one that could inspire an artist to attain the greatest heights of his glory.

"Lake Bennett is twenty-six miles long and has an average width of one mile. It lies next body of water northwest of Lake Lindemann, which is the first of navigable waters running into the Yukon. When we left Lake Lindemann three weeks ago the mercury was down to twenty below zero, but the cold was not so severe as zero in our own country. During our stay there several of us were caught in a blizzard, lost the trail and had considerable difficulty in getting within sight of tents, but we finally got out all right. The weather here is warm, snow and ice are leaving fast. Those who have come in so far have had the advantage of bringing their freight down on the ice, using sails on the sleds and thus getting the benefit of the favorable south winds which prevail at this particular time of the year. Lakes Lindemann and Bennett occupy the same valley and the almost uninterrupted line of mountains along the shores make a good funnel for the winds which come from the ocean, and through the White and Chilcoot passes.

"When our boats are built we will launch and set sail for the land of gold with good prospects to outcourage us onward. Our boat is to be twenty-four feet long and six feet wide. It will be christened the Edward, after our dear little son. We expect to reach Dawson in five weeks after starting from here. Shortly after arriving there I can write definitely about my home coming. The sacrifice of family separation, the many trials and hardships getting here are too many to leave hurriedly without climbing something substantial before departure. In a few weeks we will be sailing past rivers whose bars yield gold. All the rivers for many miles below us furnish flour gold, which increases in coarseness as the rivers are ascended. On any of these rivers a man can make good wages, but none are looked to now with much interest.

Dawson City seems to be the destination of nearly everybody, the impression being that upon reaching there information of rich strikes can be obtained. This is no doubt true, and rarely comers will get good claims with little trouble. The territory cut by gold-bearing streams is almost unlimited, so that there is little doubt of the truthfulness of the statement that 200,000 men could prospect the Yukon basin and be lost to one another. I can see only a bright future for the entire Yukon basin as a mining country, not only in auriferous deposits, but in vast beds of quartz and the other resources. The mountains on either side of us here at Lake Bennett are almost solid limestone. At Lake Lindemann the mountains are of granite—granite which has been polished by the weather in places until it is as beautiful as though done by hand.

"The rush this spring is hardly up to expectation, although it will be great. Many have turned back before crossing the divide unable to cope with the difficulties which are such as to test the endurance of strong, healthy and hardy men. It has been told by some writer that a trip to Alaska means most incessant toil, such as packing provisions over pathless mountains, digging in bottomless frosts, sleeping where night overtakes, enduring for seven long months a relentless cold which never rises above zero and frequently falls to 60 below. It is no doubt the truth but it is admitted by old miners that any man physically endowed to overcome these obstacles can by strict attention to business make a good stake with possibilities of a fortune.

"The summer months are delightful. Game is plentiful a few miles back from the now much traveled routes. They say that all along the line of travel from the coast range to old Fort Yukon the observer can see vast treasures of gold, marble and copper in the mountains. The day is coming when transportation facilities will make this chain of lakes and rivers one of the greatest tourist countries of the world. There is no grander scenery nor finer climate than this lake and mountain country during the three months of summer.

"We have as our guest this evening John Carroll, who has the subcontract to carry mail. He was on his way out from Dawson, having left there April 23, walking all the way. He said that very little prospecting has been done in the Klondike the past winter, but that many claims were staked on chance. Supplies at Dawson are plentiful. Many of these claims will no doubt prove rich, while others are worthless, but will serve the purpose of speculators who are preparing to do up the tenderfoot to the queen's taste when the spring rush is fully on.

"A reported rich strike on the Big Salmon river proves to be a fake gotten up for the sole purpose of lining the pockets of surveyors who charge big fees for their work. Mr. Carroll informed us that the Americans did not receive the best inducements to the poor man. Forty Mile creek diggings, he said, as its poorest clean-up would produce $8 per day. When we got to Dawson I will meet likely again join Mr. Ivey, Mr. Green and Dr. Dove and son, all of us to form a party for prospecting on equal shares. At least that is the most brilliant plan now in view. It offers an opportunity to make a few thousand dollars—possibly many.

"If in June we can get down to business I am to get on a boat as quickly as possible and return to the states, there to procure provisions and necessaries for the next winter.

"You can see women on all sides going into the gold fields, many of them being to all appearances refined and of good station in life. It is no longer a marvel that the fair sex should go to Alaska, for there is need of them there and all will do well.

"News of Dewey's victory at Manila harbor has just reached here, setting almost the entire camp in a glow of patriotic enthusiasm, showing how largely American the people here are."

NORTON & JONES' SHOW.

Season to Open Saturday—New Illuminant for Canvas.

The Norton & Jones' show will open the season Saturday evening with an exhibition on the jail flats. This show is one of the most popular and successful on the road, and starts out this season with better prospects than ever. The show has new attractions, new people, and the bill prepared for presentation to patrons is one of the best. The proprietors have introduced a decided innovation in the way of lighting tents with acetyline gas, the new illuminant. Even the best and biggest shows are clinging to the old fashioned gasoline lamp pendant from the center pole, and all the attempts made to get away from the dangers and disagreeable features of the unsteady light have been futile. Electric lights were tried, but the wires proved dangerous in case of windstorms. The proprietors of the Norton & Jones' shows have been first in the field to try acetyline gas, and believe they have solved a difficult problem. They have purchased three generators from C. R. Jones, of this city, and the first test of the light will be made Thursday evening.

PATRIOTIC ENTERTAINMENT

At Westminster Church for the Benefit of the W. C. T. U.

A patriotic entertainment will be given in Westminster church tomorrow evening for the benefit of the W. C. T. U. The following program will be rendered:

Piano solo.....
Miss Jessie Scott, of Westminster Seminary
Recitation—"Dewey's Advance".....Miss Ada Bell
Vocal duet—"Stars and Stripes Forever".....
.....Misses Davis and Allison, Bluffton
Patriotic address.....Prof. W. E. Adams
Recitation—"The Whistling Regiment".....
.....Miss Phillips
Solo—"The Volunteer's Farewell".....
.....Mr. Watterson
Recitation—"My Sister".....George Thornton
"Red, White and Blue".....Audience

JOKE OR FRAUD.

An Alleged Appeal to German Citizens Excites Berlin Newspapers.

BERLIN, June 2.—The German press strongly criticises an alleged appeal published in the newspapers generally and purporting to emanate from the "United States department of national coast defenses," urging German veterans residing in Germany or elsewhere who have become citizens of the United States, either to "enlist in the service of the United States or else contribute to the war funds."

Andrew D. White, United States ambassador to Germany today published a statement setting forth that the appeal is either a fraud or a joke, as no such department exists and as no such appeal has been authorized by the United States government.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at Dreier & Bros.' drug store. Regular size 50c and $1.00. Guaranteed or price refunded.

The Sure Is Grippe Cure.

There is no use suffering from this dreadful malady if you will only get the right remedy. You are having pain all through your body, your liver is out of order, have no appetite, no life or ambition, have a bad cold, in fact are completely used up. Electric Bitters is the only remedy that will give prompt and sure relief. They act directly on your liver, stomach and kidneys, tone up the whole system and make you feel like a new being. They are guaranteed to cure or price refunded. For sale at Dreier & Bros.' drug store, only 50 cents per bottle.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Dreier & Bro.

Just What You Want.

An artistic booklet entitled "Summer Outing," published by the Nickel Plate road, describing vacation resorts along south shore of Lake Erie, also find list of country homes open to country boarders, sent to any address on application to B. F. Horner, General Passenger Agent, Cleveland, O.

Another Peg Nearer the Bottom of the Ladder.

Youngstown Won the First Game From Fort Wayne on a Home Run by Mack. Other Games.

Fort Wayne played its first game of the season with the Youngstowns yesterday and the rejuvinated tail enders won. Bauman and Knepper were opposing pitchers and both did fine work, the Hoosiers solving Knepper in only one inning. Joe Steen won the game for Youngstown in the eighth inning by hitting for a home run with two men on bases. A pretty feature of the game was a triple play by the Fort Waynes, the second the Hoosiers have made on the Youngstown grounds in three seasons of the Inter-State league's existence. The attendance has increased since the Youngstown's commenced to win a few games Score:

NOTES.

Fleming, who was released by Indianapolis to Omaha, is only loaned. He will return to Indianapolis next spring and will find a place on the team waiting for him in all probability.

The Shamrocks will play in Logansport Sunday. The team will go on the noon train over the Wabash. Robbinsand Eising will do the battery work for the Shamrocks.

Clippy McGarr, who used to play such a third for Cleveland that no one thought he would ever have to lay down, wants a job in the Inter-State. He did good work for Columbus last year.

Flick, the Inter-State league youngster who is cavorting around in Sam Thompson's old shoes in the quaker outfield, now leads the league hitters. Not a bad record for his first season in major league company.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative power, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

FIVE MILLIONS.

The Sum Dr. Herz Demands of French Government.

The State Department Interested in the Case—Was Arrested and His Property Confiscated.

LONDON, June 2.—Documents proving the American citizenship of Dr. Cornelius Herz, who was prominently connected with Panama canal matters, are now on their way to Washington. It is said that Secretary Day has informed Dr. Herz that if he can show he has done all possible without avail, through his lawyers, to obtain compensation from France for his seeming persecution, the United States will take up his case. Consequently the sworn proofs of his American citizenship are now on their way to the United States.

It was announced in January, 1897, that counsel for Dr. Herz presented at Washington a claim for indemnity in the sum of $3,000,000 against the French government, for the alleged illegal attempt to prosecute Dr. Herz.

Dr. Herz, whose name stands very high in scientific circles as an electrician and physicist, although born in France of French parents, was educated in New York, and at the age of sixteen years served in the United States army.

He married an American woman, and when his children were born in Paris he caused them to be registered as American citizens at the consulate.

On January 19, 1893, while he was stopping at Bournemouth, Eng., with his wife, he was arrested under extradition proceeding on a warrant from the French government, charging him with fraud and embezzlement growing out of the Panama canal scandal.

Under the law a prisoner wanted for extradition must appear at the Bow street police court. Dr. Herz was confined to his bed by illness and so was unable to appear. The case was kept open and he was continued under arrest in his bed for four years. Then the British parliament came to his relief and passed a special act that permitted the magistrate to attend Herz's bedside and take his testimony.

This was done and the magistrate promptly declared that the charge was invalid and scarcely deserving of notice. Herz was thereupon released from arrest. Meanwhile the French government had instituted numerous proceedings against him in France and confiscated all his property and that of his wife. Dr. Herz alleged that this was persecution, pure and simple, and that the French government knew even before his trial that the charges against him were baseless. Therefore, claiming to have been injured in name and health and in other ways, he demanded that the state department should prefer a claim against the French government. Although he mentioned no sum, the brief showed that he demanded the sum of $5,000,000 in a letter he sent the crest of the French republic, which was never answered.

THE COURTS.

Dr. Arthur Dodge Gets a Judgment for $800 Against the Ryan Trucking Co.

Arguments were completed this morning in the suit brought by Arthur Dodge against the Ryan Trucking company. The jury retired at 11:30 and a 2:30 returned a verdict of $800 for plaintiff.

WANTS AN INJUNCTION.

W. J. H. Prolasco, administrator of the estate of Aaron C. Prolasco, commences three suits against the Michigan Trust company for an injunction to prevent them from delivering property in the possession of Lucina Prolasco when she died, alleging that it was a portion of the estate of Aaron C. Prolasco and was to be held only in trust for his five children. W. G. Colerick penned the complaint.

RELIGIOUS MEETINGS

The Christian and Missionary Alliance Convention.

Meetings of Great Spiritual Power Being Held by Rev. Eldridge—Fine Singing.

The services of the Missionary and Christian Alliance convention being held in the city, conducted by Rev. G. N. Eldridge and wife, are growing in interest and power with every service. The attendance last evening in the Y. M. C. A. building was very large, and Rev. Eldridge preached a very powerful sermon on the baptism of power. At the close of the sermon a telegram was received from the famous Ohio quartette, composed of Rev. D. R. Hyland and wife, Rev. D. W. Kurr and Edwin L. Bowyer. These special workers are on their way east from St. Louis, and will remain in this city today and tonight. The meeting today at 10 o'clock was well attended, and short addresses were delivered by Rev. Eldridge, Mrs. Eldridge and Rev. Kurr. The quartette sang several very beautiful selections. Another great service was held this afternoon in the Berry Street M. E. church. The meeting tonight will be held in the Berry street M. E. church, and it is expected that an immense crowd will attend. The quartette will be at the evening service, and a meeting of great spiritual power will be held.

ON THE CHARLESTON.

Charles Fisher Becomes a Government Electrician.

Has Been Assigned to Admiral Dewey's Squadron at the Philippines—Shop and Rail.

One of the employees of the Electric corporation is in receipt of a letter from Fred Mensch, now located at San Francisco, Cal., in which the writer states that Charles Fisher has enlisted in the United States navy and is now an electrician on board the Charleston, bound for the Philippines. Mr. Fisher resided in this city several years ago and was employed in the electric works. He went to San Francisco to take charge of a lighting plant and when war broke out he resigned and has been succeeded by Mr. Mensch.

WILL NOT BE BUILT HERE.

Yesterday's Indianapolis Journal stated that in case the war with Spain is soon ended the Pennsylvania will begin the building of thirty of the new class of freight locomotives at the shops in Fort Wayne and Columbus, and that 100 will be built at the Altoona shops. Inquiry at the shops in this city did not confirm this bit of news. One of the officials said that the Pennsylvania had under contemplation the building of 100 of these engines at the Altoona shops, and if the work was accomplished thirty of the engines would probably be put into service on the Fort Wayne road. But he had no information to the effect that any of the engines would be built here. A week ago a telegram from Philadelphia was published that 100 engines of the class mentioned would be built in Altoona and added that the engines would be of the largest kind, weighing, when in working order, 218,000 pounds.

General and Local Items.

Master Mechanic B. Fitzpatrick went to Chicago this morning on railway business.

John Dickson and Fred Roemble, Nickel Plate firemen, are taking a few days' recreation.

Fay Chappelow has been transferred from the testing room at the electric works to the laboratory.

Brakeman J. Huffy, of the Nickel Plate, has taken a few days' lay off to visit friends out in the country.

After an illness of a week, Brakeman H. C. Needhammer reported for duty on the Nickel Plate yesterday.

This morning the Electric corporation sent a 2,000-light dynamo to the Wellman-Dwire company, St. Louis.

William Donnell, of the polishing room at the electric works, was fifty-five years old yesterday. He worked as usual.

F. W. Rops and U. W. Lohman, of the Pittsburg planing mills, are taking a lay-off to look after some business matters.

Charles Green, of the electric works, is engaged in wiring the new house of S. E. Hunting, on Washington boulevard.

F. Kramer, painter at the Pittsburg shops, and his wife, left last evening for Minnesota, where they will visit a few weeks.

Engineers Thomas Osler and George Quidore are taking a brief rest from their labors. They are Nickel Plate employes.

Machinist E. Zorbaugh, of the Pittsburg shops, has returned from Little York, Pa., where he attended the funeral of his sister.

Machinist F. J. Singleton, of the Pittsburg shops, is out after an illness of three weeks. He expects to be able to resume work next Monday.

Bert Elkins, machinist at the Wabash shops, has gone to the company's hospital at Peru for treatment. He has been ailing for several days.

Foreman R. H. Harrison is detained at home by the serious illness of his wife. The lady had been reported better, but yesterday she suffered a relapse.

C. L. Miller, stationary fireman at the Wabash shops, is preparing for a visit with friends and relatives in Council Bluffs, Iowa. Mrs. Miller will accompany him on the journey.

As an evidence of the improved condition of business over last year, the Indianapolis Journal says that "25 to 30 per cent. more men are now employed in freight houses than at this season of 1897."

A big crowd assembled at the Pennsylvania depot last evening to greet the train load of naval recruits who passed through the city. They were all young men—some being more boys—but they will no doubt make good sailors.

Next Sunday excursionists from the Pacific coast to Chicago via Fort York will go into effect, second class only being effected. The rate from San Francisco to Chicago, second class, will be $32.50; from the coast to New York, $42.55.

Charles Komp, an employe at the Kerr Murray works, met with an accident last evening that cost him a finger. He had one of the fingers of his right hand caught in a machine and so badly crushed that it had to be removed. Dr. C. C. F. Nieschang dressed the injury.

The largest force is now employed at the shops of the Vandalia in Terre Haute in years, and in the month of May more work was turned out than in any month in the road's history. Traffic has been so heavy that repair work of late has been unusually large.

Louis Kopp has resigned his position in the Wabash machine shop and will leave the city. He is a fine workman and the foreman at the shops said he was sorry to see him quit that establishment.

The veteran machinist, C. W. Dwelley, of the Wabash shops, is going to take a vacation soon, during which he and his wife will visit their married daughter at Kansas City. Mrs. Dwelley will remain down there several weeks.

O. E. Bradway, J. A. Graham, Enoch Cox, J. H. Fry and Hugh Hogan will go to Rome City tomorrow to look over the field and arrange for the shopmen's annual picnic. The gentlemen named compose the committee on grounds.

Next week Mr. and Mrs. John Offen will visit friends in St. Louis and vicinity. He is a machinist at the Wabash shops. Mrs. Oscar Johnson, whose husband is a fireman for the same company, will also visit in that city next week.

The "Electric," the private car of President Norval Greene, of the Western Union company, is receiving the finishing touches in the Pittsburg shops in this city. It has been revarnished inside and out and presents the appearance of a new car.

Last evening occurred the marriage of Fred Schleferstein and Miss Gertrude Schmeling. The couple had fitted up a home on Buchanan street and repaired there immediately after the wedding. Mr. Schleferstein is employed in the Pittsburg lumber yards.

A special meeting of the Electric Relief union has been called for tomorrow evening, at the hall, 138 Calhoun street, for the purpose of electing officers. The annual excursion committee will also be selected at this meeting and it is desired that there be a full attendance.

The Western Gas Construction company never had better business than it is enjoying at present. The shop is now working the largest force it ever had and there is talk of putting on a night force. There are enough orders on hand and in sight to keep the works running at full capacity for two or three months.

R. M. Germain, passenger engineer on the Nickel Plate, has taken a three weeks' vacation and tonight will leave for New York state to visit the scenes of his boyhood. He will be accompanied by his brother from Chicago, who is also an engineer, having a run on the Chicago and Alton road.

Roy Jackson has resigned his position at the electric works and last night left, over the Wabash, for Los Angeles, Cal., accompanied by his sister. Mr. Jackson has secured a good position at his trade at that place and expects to reside there in the future. His parents moved there about a year ago.

There is trouble brewing for the Lake Erie and Western. Some time ago the company discharged A. M. Johnson and Asa Ridenour, passenger conductors, without assigning any reason for the dismissals. The employes of the company are now demanding that the men be reinstated, and if their demands are not granted, they may try to force them.

When the Bell road at Indianapolis was first put in operation it was managed by the company which built it and owned the stock. Then it was changed for handling a car and the road did a business of $7,000 per week. It was a gold mine to its owners, but they leased it, fearing a falling off in business. The line is now handling 23,000 cars a week, which at the rates charged by the original company means an earning of $23,000.

N. W. Bloom, the undertaker, while working about the city Y. M. C. A. building yesterday, fell from a ladder and sustained a severely sprained ankle. He was removed to his home and was there attended by Dr. Rahl.

Cure a Headache in 15 Minutes

A CHANCE TO ENLIST

Twenty-eighth Battery Needs Fifty-five Men.

Captain Banks Ordered to Fort Wayne to Secure Recruits for His Company—Recruiting Day in Camp.

The following letter has been received by THE SENTINEL from a soldier of the Zollinger battery and on many accounts it will be read with more than ordinary interest:

HEADQUARTERS TWENTY-EIGHT LIGHT BATTERY, IND. VOL., CHICKAMAUGA PARK, GA., Tuesday, May 31, 1898.

Decoration day for the soldier boys of Fort Wayne was spent this year in a very different manner than has been their custom heretofore. Instead of turning out in cleanly brushed and pressed uniforms, with white collars and cuffs, and parading through the streets of our home city and out to the Lindenwood Cemetery, there to wait for the never failing shower of rain to come up and drench us through to the "child," this day found the boys of the battery enjoying a holiday in this beautiful and famous park far away from home. Most of the day was spent in sitting around camp quarters reading Fort Wayne papers, which by the way, are now regularly received by a number of the men, and also pouring through long and unparantly very interesting letters from loved ones at home, while others could be found in somewhat distant and lonely parts of the woods near the camp sitting under trees writing to M——, known only to the writers.

We were not disappointed, however, in the customary Decoration day rain, for shortly after dinner moss, dark clouds were visible in the distant northwest and soon could be heard the rumble of thunder as the rain loaded clouds drew nearer.

It was not long before the soldiers were scampering around looking in kiks, blankets, and the Monday washing out of the way of the rain. Tents were closed and fastened down tight and then all laid back and waited patiently for the shower to blow over. The rain poured down in torrents for nearly an hour and some of the men who had dug cellars under their tents were unfortunate in having them flooded, thus spoiling butter, cheese, sugar and other extras that were stored away there.

A bath is now considered a luxury as well as a necessity. Last Saturday naturally suggested a bath and quite a number of the boys mounted mules and horses and rode bare back over to Chickamauga creek, about four miles from our camp, and bathed in the stream. The mere mentioning the name of this creek will doubtless bring back to the minds of some of our Fort Wayne veterans recollections of the past. The stream is narrow, swift running and in some places quite deep and is the only good bathing place near our camp.

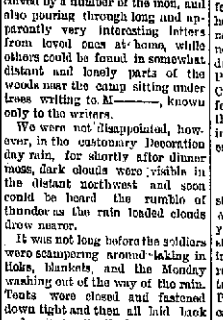
Captain Banks has just received orders to muster enough more men to make a six-gun battery. This means that fifty-five more men are needed, as the muster roll now numbers 125 men and to make a full six-gun battery it requires 180 men, all told. It is desired that the most of this number be recruited from Fort Wayne and vicinity, and to this end Captain Banks will leave tonight for Fort Wayne to muster in those who desire to enlist.

The artillery is considered by those who are in it as the best branch of the United States army and at Indianapolis there were considerable more applications for membership in our battery than were needed, after those who failed in the medical examination were returned home. The full quota could doubtless be obtained at this camp if the effort was made, but by special arrangement by Captain Banks, permission has been granted to muster in the necessary number from our home town.

This will certainly be very welcome news to quite a number of men at Fort Wayne who could not get into our company when we left home.

It is advised that all who desire to enlist in the service of our country in this little brush with Spain make arrangements to muster in when Captain Banks, representing the old Zollinger battery, comes to Fort Wayne.

Due announcement will be given through the Fort Wayne papers of the time and place for mustering.



ONLY A FAUCET.

It's only a faucet in the kitchen sink, but it should be properly attended to. You would not employ a horse doctor just because it was only your little finger you had to have cut off. What's worth doing at all should be done right, and that is the only way we do our work.

THE PLUMBER
Phone 672. 68 Barr St.

TOO QUIET.

Secretary Alger Escapes From Washington to Philadelphia.

WASHINGTON, June 2.—The president was late in reaching his desk this morning.

During the forenoon callers from the two houses of congress were numerous, but a number that came early, including Representative Hull, of Iowa, chairman of the military affairs committee, and Representative Lagor, of Iowa, did not waite to see him personally.

Others who came were mostly on war appointment seeking missions, and included Senators Morrill, of Vermont; Platt, of New York; Jones, of Arkansas, and Deboe, of Kentucky; and Representatives Foote, of New York; Richardson, of Tennessee, and Snyden, of Texas.

Though there was no news afloat as to developments at the front there was a profusion of uniforms at the white house, many of the volunteers now stationed at Camp Alger appearing in full uniform among the sight seers who nowadays throng to the office and home of the president.

Many of the men at the camp are taking advantage of opportunities to secure leave of absence from their detachments to make the rounds of the capitol.

That there was a total lack of official news at the white house of developments in the war situation was evident at 11 o'clock today, when Secretary Alger went in to see the President. He spent only a few minutes and on emerging said he came over to see if there was any news and announced there was nothing of significance. He then drove off, saying he would leave for Philadelphia immediately. Senator Cullom, of Illinois, was one of the few who saw the president out of the number who sought personal interviews. He had a long conference.

A Cure for Heartburn.

The burning sensation in the stomach, the pains and suffering which I experienced for five long years, brought on by continual constipation and biliousness, are almost indescribable. I tried every known remedy without effect. Finally I tried Ramon's Liver Pills and Tonic Pellets, following the directions carefully. After taking a few doses I began to improve. I have not used more than three boxes and feel as well as I ever felt. My restoration to perfect health I attribute solely to the use of Ramon's Liver Pills and Tonic Pellets, and I only wish I could persuade others to do so as I did and be cured.—Logan M. Nalls, Amsterdam, Va. For sale by Gross & Pellens, 91 Calhoun street. may24-eod1m

Room 26, Bank Block, Fort Wayne, Ind.
Stenographer and Notary Public in Office.

In olden times a leper was stoned out of town; in modern times a sick man is almost out of all business chances in the line of insurance to buy.

Those things are bad enough in the self-respecting and well-behaved; they involve if they do not go any further. But you never know what is going to develop in a half-nourished, bile poisoned constitution. If a man as soon as he feels that he is not getting the forceful strength and energy out of his food that he should get, will begin taking Dr Pierce's Golden Medical Discovery, he will soon put himself in the position where he can do a man's work easily and cheerfully.

If appetite will be sharpened; his liver invigorated; his digestion strengthened; his edge put on his whole nutritive apparatus. Three subtle poisons which debilitate the entire organism and invite consumption and a host of other diseases, will be driven out of the system, and he will gain plenty of pure nourishing red blood, muscle, power and nerve force. In short he will be a man among men.

There are hundreds of definite temporary ailments, small enough, unimportant and comparatively, which are more or less complicated by thoroughly deranged digestion and torpid liver, and which will get well promptly and permanently when the "Discovery" is used. It is well to remember, however, that no substitute for it has been devised in the treatment of these ailments, which has been in use for thirty years and that it is the only one of its class sold by druggists, or which has devised a long list of cures of patients and professed ability to cure all diseases.

Mrs. Runner, living ten miles south of the city, who has been here for several months taking treatment, was removed to her home yesterday. She is not much improved.

Winfield S. John, of Spencer, Owen county, and William C. Wilber, of Lawrenceburg, Dearborn county, were in the city yesterday looking to their political fences. Mr. Johnson is a candidate for auditor of state, and Mr. Wilber for treasurer of state, subject to the decision of the democratic state convention.

Home Grown Strawberries.

The Greatest Grocery has arranged to handle the crops of several large growers of small fruits in this vicinity, which will enable us to supply all Fort Wayne with fine luscious berries, fresh from the vines.

The nice weather is ripening berries very fast and our receipts are much larger than we expected so early in the season. We had 23 baskets this morning and look for about the same quantity every day this week.

We have reduced the price of the very best berries to 7c quart when bought by the case of 16 quarts; also have some very good berries at 5 and 6c quart.

Cultivated Gooseberries, 8c quart.
Florida Pineapples, 15cench
Fresh Green Peas, 2 quarts, 5c.
Evaporated Dried Apples, 4½ lb.
Evaporated Dried Raspberries, 12½c lb.
Fresh Eggs, 9c doz
Golden Rio Coffee,
Fresh Lake Fish.
Remember our Fresh Meat Market.
Chickens, ducks and turkeys dress'd to order at

THE NEW KEYSTONE,
Stand 200 Calhoun Street.

See the new neckwear at Rosten & Tattersons.

ORDERED TO MOBILE.

Lieutenant Russ and Detail Close Recruiting Station in Fort Wayne.

The United States recruiting station in the Lee block has been closed. Lieut. Charles Russ, of the Eleventh United States infantry, together with his detail, consisting of Sergeant Deneger and Private Bentlinger, has been given orders to rejoin the regiment at Mobile. They expect to see immediate service in Cuba. Lieutenant Russ secured seven recruits for his regiment while in Fort Wayne and they left this forenoon for Fort McPherson, near Atlanta, Ga.

Golden Rio—Your money's worth. 2Sedlt

W. C. T. U. entertainment Westminster church Friday evening. Admission 15 cents. 21f

FOR RENT.

House at 18 McClellan street, eight rooms. House No. 40 Killen street, on monthly payments; a bargain. Apply to 37 Douglas avenue.

This morning at the clothing store of Sam, Pete & Max the phonograph and music to be given away June 1 was awarded. Louis Grelbel, of the Staats Zeitung, Mr. Pumphrey, of New York, and Bentes, of the Home Billiard hall, superintended the distribution. The holder of ticket 10,321 is the lucky contestant, and if the holder does not present it within a given time the prize goes to No. 10,181; 10,211 is third choice and 10,297 is fourth.

One Fare Sunday Excursions are on sale from all stations on Nickel Plate road.

INDIANA MEDICAL & SURGICAL INSTITUTE.

Dr. Younge & Co., have treated more patients, cured more people, and made more men and women healthy and happy than any other medical firm in Indiana.

SWORN TESTIMONIALS

Are the only testimonials upon which we base our belief. We say the only testimonials that should be believed are those which state what we claim to cure. Of the other doctors did and could not cure, have given up their patients that we have cured them after all other help had failed.

Twenty Years' Experience in Treating Chronic, Nervous, Blood and Skin Diseases.

Varicocele, Hydrocele, Ulcers, Stricture, Syphilis, Gonorrhea, Gleet, Kidney and Bladder Troubles, Rupture, Piles, Fistula, Private Diseases, Blood Poison, Pimples and other bad results of early vice or excesses and improper Cures, Rheumatism, Dropsy, Kidney and Bladder Troubles, all Chronic and painful complaints.

HIDE AND SEEK.

Hide the Spanish fleet in the sea and it takes a long seeking to find it. Hide "Hummer" in the flour and no seeking is necessary, for the flour is so puffed up it tells the tale in appetizing food.

Food materials give good results; that is why "Hummer" succeeds. "Hummer" Baking Powder is sold by leading grocers. Made by

The Hummer Mfg Co.

Fort Wayne, Ind.

BEADELL & COMPANY.

Best Lighted Store in the City.

OUR SELLING IS TABLE TALK.

Merchants marvel at it—vainly attempt to compete. You can easily see the advantage we've got of them, the advantage which comes from buying in quantities large enough to supply our THREE FURNITURE STORES as well as the advantage of unlimited capital and enterprise.

If the Privilege of Having Your Purchases Charged

is any convenience to you you're welcome to it. There's no doubt in the world you would rather pay for what you buy in little payments—say one each week, every two weeks or once a month, which ever way suits you best.
